

WEATHER SYNOPSIS

The barometer is rising on the Northern Coast, and fair, warm and very dry weather will increase the forest fire hazard throughout this province. Fine, moderately warm weather is reported in the Prairies.

Conservative Cabinet Enters Upon Function To Govern Province

Personnel Includes Eleven Members, Two of Whom Are Without Portfolio, With Two Branches of Civil Service Not Yet Allotted to Ministers

Administrator Admonishes Members Of Responsibility to the Community

THE new Government of British Columbia, under the premiership of Hon. S. F. Tolmie, has assumed office, being sworn in yesterday afternoon before Chief Justice J. A. Macdonald, of the Court of Appeal, in his capacity of the Administrator of the province in the absence of His Honor the Lieutenant-Governor. Dr. Tolmie, who took the oath of office the day previously as First Minister of the Province, was sworn in yesterday as Minister of Railways, in addition to his duties of Premier.

The Ministers of the Crown who took the oath, together with their respective portfolios, were:

Provincial Secretary—Hon. Samuel L. Howe, of Richmond-Point Grey.
Attorney-General—Hon. R. H. Pooley, of Esquimalt.
Minister of Lands—Hon. Frank P. Burden, of Fort George.
Minister of Finance—Hon. W. C. Shelly, of Vancouver.
Minister of Agriculture—Hon. W. Atkinson, of Chilliwack.
Minister of Mines—Hon. W. A. McKenzie, of Similkameen.
Minister of Public Works—Hon. Nelson S. Loughheed, of Dewdney.
Minister of Education—Hon. J. Hinchliffe, of Victoria.
President of the Council—Hon. R. W. Bruhn, of Salmon Arm.
Minister without Portfolio—Hon. Royal L. Maitland, of Vancouver.

There are yet portfolios under the Constitution Act of labor and industries to be filled, which will be distributed among the ministers.

FIRST MEETING HELD

Following the taking of the various oaths of office connected with the assuming of the responsibilities of administering the affairs of the province, a meeting of the ministers was held in the office of the Premier, when the situation was gone into in a general way preparatory to entering upon the duties of the various offices.

Several of the ministers who are not resident within the city, or within easy reach of here, will leave for home almost immediately to wind up affairs, so as to allow of their moving with as little loss of time as possible to the capital. Several of them left last night for the Mainland.

It will therefore be well to note that the new ministers will be in their places in the Legislature on Monday. In the meantime, the Premier, Attorney-General Pooley and Mr. Hinchliffe will be on the ground, and will carry on the business until all the members can return and take up their respective duties.

Following the swearing-in of the ministers, the Administrator extended his congratulations to the Premier and the members of the Government.

"I need not tell you," said Chief Justice Macdonald, "that you have taken a difficult task. The government of the province and of the Dominion, calls for a lot of skill. It also calls for diplomacy, and requires of those who engage in it a lot of patience."

"I have every confidence that you as Premier and your colleagues will perform your duties to the satisfaction of the province. You have the support of the majority of the people in the province, as shown at the polls."

He concluded by again congratulating them, and admonishing them to govern the country wisely and well.

Premier Tolmie, on behalf of the members of his Government, as well as for himself, thanked the Administrator for his attendance for the purpose of administering the oath of office, and also for the kind words that he had spoken. He assured him that they would be pleased to accept of his advice.

From the Colonist Tower
Wednesday, August 22
235th Day, 1928

THE WEATHER

Victoria and Vicinity: Moderate to fresh west winds, generally fair and warmer.
Sun Rises: 5:16 o'clock.
Sun Sets: 7:16 o'clock.
High Tide: 7:46 p.m., 8.6 feet.
Low Tide: 2:36 a.m., 4.1 feet.

Sports

Giants still cling to slim lead in National League over Cards. Favorites find going difficult at Willough track. Only one comes through on top. Pine card to be presented today.
Chicago golfer wins qualifying round in Western Amateur golf. Victoria Amateur Senior Baseball League averages for season released.

NEW OFFER IS MADE TO FISHERMEN

Cannermen Take Step Toward Settlement of Strike—
Compromise Increase in Prices Proposed

GENERAL MEETING TO CONSIDER TERMS

Gathering Called for This Afternoon—Meanwhile All Boats Idle Throughout District

VANCOUVER, Aug. 21.—A step towards settlement of the strike of Fraser River fishermen, now entering on its third day, was taken Tuesday, when the price offered by the cannermen was placed before officials of the British Columbia Fishermen's Protective Association at a meeting at the offices of the Canadian Merchants' Association. The offer was 70 cents per fish for sockeye until September 15, after which the price is to be governed by quality with a committee to be appointed to determine quality and price. Cannermen also offered 9 cents a pound for red spring and 3 cents for white spring as long as possible, with 6 cents a pound for cohoes now, and a price adjustment within the main run begins. The price suggested for chums is 15 cents a fish at the present time, and an adjustment with the main run.

TO CONSIDER OFFER

The schedule is 5 cents less on sockeye than the demand of the fishermen, who are also asking 8 cents a pound for cohoes and 25 cents each for chums till the finish of the season.

The fishermen's executive held a meeting at the Westminster hotel last night and called a general meeting of fishermen in the Royal City at 2 p.m. tomorrow, to consider the offer of the cannermen. In the meantime boats are still idle in the whole of District No. 1.

NOTABLE MEN TO BE FETED

Hon. Ramsay MacDonald Will Address Canadian Club Supper Meeting on Tuesday, August 28

LORD LOVAT HERE ON SEPTEMBER 19

Hon. Ramsay MacDonald, former Prime Minister of Great Britain, who is now on a tour of Canada, will address a supper meeting of the Canadian Club of Victoria next Tuesday night, August 28, at 7 o'clock, in the ballroom of the Empress Hotel. The Canadian Club of Victoria, in common with other Canadian Club bodies in this Dominion, tender the distinguished visitor a royal welcome.

The Canadian Club will hold a supper gathering on the evening of Tuesday, September 11, at 7:30 o'clock, in compliment to sixty members of the Empire parliamentary delegates, who will be visiting Victoria at that time.

Lord Lovat, parliamentary under-secretary for the colonies, and chairman of the Overseas Settlement Committee of Great Britain, will be the Canadian Club's speaker at the supper, which will be held at the Empress Hotel on Wednesday, September 19.

The Association of Canadian Club will hold its annual convention on Wednesday, Thursday and Friday, September 5, 6 and 7. The local Canadian Club will be represented at the party by either Mr. B. C. Nicholas, a past president, or Mr. William T. Strath, vice-president of the Canadian Club of Victoria.

The following have been elected recently into the membership of the Canadian Club here: Brig-General A. G. L. MacNaughton, C.M.G., D.S.O.; Messrs. Alfred Reed, Dr. Thomas McPherson, D. G. Britton, W. E. M. Mitchell, M.D., Walter Harbord, P. R. Brown, John Ringshaw, C. A. MacKenzie, Reginald Eustace Hise, Dr. W. W. Hise, Dr. H. Henderson, Dr. T. H. Johns, Dr. H. Allan Fraser, Dr. Ernest A. Hall, Dr. Allan Fraser, R. G. Monteith, J. F. Errington, Frank H. Patridge, Richard A. Lipsey, H. C. Heigerson, Robert H. Campbell, J. M. Cameron, William Barrowclough, Arthur G. Tilsen, Cecil M. Rose and Douglas J. Hunter.

Forty Nations SEND ENTRANTS

More Than Four Hundred Entries Received at Toronto for \$50,000 Swimming Prize

TORONTO, Aug. 21.—More than 400 aspiring world champions from all parts of the world will enter Lake Ontario on September 5, to compete for the long distance swimming championship of the \$50,000 prize of the third Wrigley swim. All entries now have been received and the list discloses that forty nationalities and one hundred trades and professions are represented.

There are doctors, lawyers, ministers, steelworkers, drug clerks, tradesmen, swimmers and golf professionals, mail carriers, plasterers, barbers, cooks, musicians, sports writers, telephone operators, grocers and so on.
Sixty-six women are entered for the ten-mile swim on August 29, the first five of these earning the right to compete in the fifteen-mile event a week later.

Reported on Merger of Cable and Radio

SIR CAMPBELL STUART
Of London, who came to Canada to report on the merger of the Eastern Cable Co. and the Marconi Wireless Co. to the Canadian Government, is Sir Campbell Stuart, who is a native Canadian, is the head of the London Times.

DEATH LIST OF TORNADO INCREASING

Nine Known Dead—More Than One Hundred Injured, Some of Whom Are Not Expected to Live

MINNESOTA STRIP IS HIT HARDEST

ST. PAUL, Minn., Aug. 21.—Nine persons were killed, more than 100 were hurt, some seriously, and property was damaged to the extent of \$2,000,000, in the tornadoes which swept through the town of Austin, two Southern Minnesota counties and near the Iowa border Monday night.

The survey today disclosed that the tornadoes struck with greatest fury on a strip about a quarter of a mile wide and about sixty-five miles long. One tornado originated in Iowa, while another came from the southeast and met the first at Glenwood, Minn., where it continued in a half-circle back into Iowa, where the combined force expended itself in a series of storms, killing eastward. Heavy rains and thunderstorms were reported as it passed on into Iowa and Illinois.

ONE HUNDRED INJURED
Five persons lost their lives at Austin in this storm, more than fifty were injured and property damage estimated at \$1,000,000 was done. The storm, which was reported in other sections of the storm area, swept the list of injured to the 100 mark, while damage reported from Mower and Freeborn counties, outside Austin, brought the total loss to \$2,000,000.

Nearly a score of injured remained in Austin hospitals tonight for treatment of their burns, and it was feared some would die.

IN OTHER STATES

MILWAUKEE, Aug. 21.—Ruination of many crops, destruction of farm buildings and livestock that will mean losses of thousands of dollars, and disruption of communication and transportation in some counties today were the effects of the storm that cut a wide swath through Wisconsin and Upper Michigan Monday night. The storm caused the death of two persons and injuries to a score of others.

CONGRESS FILLS CITY OF SYDNEY

Shipsloads of Delegates and Visitors to Eucharistic Congress Are Arriving

(Vancouver Province Cable)
SYDNEY, N.S.W., Aug. 21.—Ship loads of delegates and visitors to the Eucharistic Congress in Sydney have been arriving regularly, and Merrett, Papal Legate, with a distinguished suite, has reached Melbourne. More than two hundred delegates and visitors reached Sydney today, including Archbishop Redwood of New Zealand, the world's oldest bishop, who is more than ninety years old. Father Martindale, of London, Eng., is also here.

The problem of housing and feeding the influx, which is expected to reach 20,000, is causing brainfag, but the congress authorities are beginning to see a way out of their difficulty.

It is anticipated that nearly half a million will view the elevation of the host. There will be a seven-mile procession across the harbor from Manly to the city.

NAVAL BALL DURING PRINCE GEORGE'S VISIT

VANCOUVER, Aug. 21.—During the visit to Vancouver of H.R.H. Prince George, the chief event will be the naval ball to be held at the Hotel Vancouver August 28 by the Naval Officers' Association of Vancouver. Other guests will be the officers of the British West Indies Squadron, which will be in port at the time.

J. W. JONES FAVORED FOR SPEAKERSHIP

Member for South Okanagan Is Likely to Succeed Mr. J. A. Buckham in the Chair of Legislation

DEPUTY MAY BE MR. H. D. TWIGG

Both Names Have Been Mentioned for Advancement When Conservative Government Functions

MR. J. W. Jones, member for South Okanagan since 1916, will probably be the Speaker of the next Legislature. It is understood the Government has decided to recommend him to the Legislature when the session is held next January, in succession to Mr. J. A. Buckham, recently re-elected for Columbia.

The member favored for the deputy speakership is Mr. H. D. Twigg, of this city, who took an active part in the recent campaign, and was re-elected in Victoria for another term.

Mr. Jones has been expected in all forecasts of the incoming administration to occupy a prominent place, owing to his vigorous criticism of the financial policy of the late Government, while Mr. Twigg's name has also been suggested for preference.

Attendance at Fair Shatters Record of 1927

Attendance at the Provincial Fair, in spite of the fact that there was the added inducement of the visit of the Prince of Wales on the first day in 1927, shows a marked improvement on the figures for last year.

The figures are as follows, based on paid admissions only:

	1927	1928
Monday afternoon	2,324	1,431
Monday evening	688	809
Tuesday afternoon	1,766	2,530
Tuesday evening	368	2,471

FATE OF PLANE STILL UNKNOWN

PROMPT SEARCH MADE ALONG ROUTE TO GREENLAND OF HASSEL PLANE

Ships and Eskimos Join in Hunt. Apparently as Yet in Vain—No Further Radio

R. Radio to the Associated Press.
NAIN, Labrador, Aug. 21.—A heavy rain and falling barometer here tonight indicated bad weather for those searching for Pilot Bert Hassel and his monoplane.

Cramer, of the monoplane Greater Rockford, last heard from at 3 o'clock, central standard time, Sunday morning, when they signalled their passage over Cape Chidley, 325 miles north of here. This information from Commander Donald B. Macmillan, of the Rawson Field Ministry expedition of Chicago, was coupled with the request from the noted Arctic explorer that "if there is anything we can do to help out in any way, let me know."

"Our ship, the Bowdoin, is loaded and ready to start for home Wednesday. It is raining hard here tonight, and the barometer is dropping."

Since the Greater Rockford signalled the letter "R" Sunday morning, its designated code for Cape Chidley, Commander Macmillan has been standing by his radio, listening for signals from the plane, but so far nothing has been heard from the flyers en route to Mount Greenland and Stockholm, Sweden.

Ships, Eskimos, and probably planes from the Hudson Strait patrol, are searching the waters over which the plane was to fly, and also the neighboring coasts.

VIOLENT STORM VISITS MANITOBA

WINNIPEG, Aug. 22.—Sweeping over Manitoba from the west a violent electrical storm, accompanied by torrential rain, played havoc with wire communications early this morning. While it was impossible to ascertain the extent of the storm, the storm had a number of telephone poles had been carried away by the wind. Outside of other damage that may have been done, the storm will have the effect of delaying harvesting in the province.

Princess Alice Takes Board Members on Trip

VANCOUVER, Aug. 21.—Northward Ho, in a voyage of rediscovery of their home province, over one hundred members of the Vancouver Board of Trade will leave tonight on the chartered Prince of Wales for a nine-day trip to Portland Canal and back via the west coast of Vancouver Island. This is the thirteenth annual excursion of the board.

To Deliver Address in This City

LORD LOVAT
Under-Secretary for the Colonies and chairman of the Overseas Settlement Committee, who is now visiting Canada to confer with Dominion and provincial governments.

DISHWASHER IN QUEBEC CITY IS GEN. C. H. GOUGH

Brigadier-General, D.S.O. and D.C.M. Experiences Vicissitude of Life—Distinguished Career

FOUND NO OTHER EMPLOYMENT OPEN

QUEBEC, Aug. 21.—"The vicissitudes of life are vividly exemplified in the career of Brigadier-General Charles Henry Gough, D.S.O., D.C.M., who, after rising to an enviable position in the Australian army, is now in reduced circumstances and a dishwasher in a local hotel," says The Chronicle-Telegraph today. The paper states that through an accident he learned of the presence here of General Gough.

General Gough, the paper says, was born in Faversham, Kent, and in 1883 entered the British army as a drummer boy at the age of fourteen, seeing service in all corners of the world. In the North-West India expedition of 1908-12, he was awarded the D.C.M.

Resigning from the British army in 1913, he enlisted in the Australian forces and served in Egypt, Gallipoli and France, rising to the rank of Brigadier-General and gaining, in addition to the 1914-15 Star, the general service and Victory medals, the Distinguished Service Order.

In 1919, the paper goes on, he was invalided back to Australia and retired from the service, afterwards going to the United States. Purely private reasons brought him to Quebec, where he was unable to obtain suitable employment. In Quebec, when almost destitute, he distinguished himself by being forced to accept the position which he now occupies.

Canadian Druggists To Meet in Vancouver

TORONTO, Aug. 21.—Vancouver will be the scene of the 1928 convention of the Canadian Pharmaceutical Association, it was decided at today's session of the convention. Announcement was also made that the association had accepted the invitation of the Canadian association to hold the 1932 convention in Toronto.

ARMORED FORCES ARE GIVEN TEST

Tanks, Armored Cars and Planes Take Part in Army Manoeuvres in Great Britain

LONDON, Aug. 21.—Tanks, armored cars, airplanes, and cavalry and infantry took part in army manoeuvres in Wiltshire today with the object of fully testing the efficiency of the newly conceived armored forces.

The armored forces were of the Eastland army and their advance was strongly opposed by the cavalry, artillery and infantry of the Westlanders. The old style Westlanders, however, despite effective work with their anti-tank guns, machine guns and rifles were eventually forced to retreat from their entrenchments on Beacon Hill to a position some distance in the rear.

GERMAN WOMEN IN RACKET AT TENNIS

BERLIN, Aug. 21.—Because the mother of Cecil Aussem, champion woman tennis player of Germany, insisted that Frau von Resenke had twice defeated her daughter by using hypnotism, Frau von Resenke put aside her tennis racquet and boxed Frau Aussem's ears. The courts will now be called upon to decide who insulted whom. Frau Aussem has entered suit for alleged "insulting assault," and Frau von Resenke has started a counter-suit for alleged "defamation of character." Meanwhile the conqueror of Frau Aussem has been disqualified by the Tennis Federation for six weeks.

Four Stowaways Caught In Cyanide Fumes From Disinfection of Steamer

Had Been Hiding in Hold of Ship at Montreal for Some Time When Discovered by Crew—
Found Overcome by Poisonous Gasses—
Sought Passage to Italy

Rushed Immediately to Hospital, Two Are in Dangerous Condition

MONTREAL, Aug. 21.—Four stowaways who imprudently hid themselves in the hold of an Italian steamship in port here shortly after the vessel had been disinfected are at the Notre Dame Hospital in a serious condition, suffering from cyanide of potassium poisoning. Two of the victims are reported to be in a dangerous condition.

Information gathered by the hospital doctor was that the four men had decided to return to Italy, and that for this reason they had hidden themselves in the hold of the ship.

The four men had been in hiding for some time when they were overcome by the fumes. When discovered by members of the crew they were rushed to the hospital.

Pilgrims to Go To Place Where Iroquois Slept

Shrine Has Been Erected in Commemoration of Six Members of the Jesuit Order Who Were Killed at and Near that Neighborhood by Iroquois in the Year 1649. A Hand-some church has been built on the hill which formerly sheltered the Hurons, while below a memorial shaft marks the site of Fort St. Mary, built under the direction of the missionaries and abandoned when the Iroquois overcame the Hurons.

The shrine has been erected in commemoration of six members of the Jesuit Order who were killed at and near that neighborhood by Iroquois in the year 1649. A handsome church has been built on the hill which formerly sheltered the Hurons, while below a memorial shaft marks the site of Fort St. Mary, built under the direction of the missionaries and abandoned when the Iroquois overcame the Hurons.

Mayor Taylor Leaves Hospital; Will Rest Achillie

VANCOUVER, Aug. 21.—Mayor Louis D. Taylor left the General Hospital this afternoon, almost a month after he was struck by the whirling propeller of an airplane at Lansdowne airport. Although the Mayor has practically recovered from the effects of the fracture to his skull, he will not plunge into active civic work immediately. He will leave tonight for the Summer camp of a friend, where he will remain for several days. It is expected that he will be at his office in the City Hall for an hour or so next Monday.

HOST GATHERS TO HEAR SMITH

DEMOCRATIC CANDIDATE TO STATE POLICY TO IMMENSE AUDIENCE
One Hundred and Four Broadcasting Stations Will Send Leader's Campaign Speech

By WILLIAM WOODFORD
(Copyright, 1928, by North American Newspaper Alliance)
ALBANY, N.Y., Aug. 21.—The Democratic party of the United States began to arrive in Albany today. Some 20,000 enthusiastic Al Smith fans are here now. Before the sun sets behind the state capital there should be at least 95,000 Smith-for-President "extras" in this city.

Special trains will bring many of the party's celebratory members tomorrow. Chartered riverboats will make their way up the Hudson during the night. The roads converging on Albany will be jammed with motorcar traffic throughout the day. Albany is in gala dress for the great event. Flags and bunting are everywhere. It is not often that this Hudson Valley city has had the honor of sending forth on its perilous political ways, a candidate for president. Albany is making the most of it.

RADIO AUDIENCE

But if the crowd which is expected to be physically present to hear the Governor live in a record one, the same will go for the great, unseen radio audience.

One hundred and four radio broadcasting stations will send the Governor's speech to every corner of the United States and into nearly every part of the English-speaking world. The radio hookup is a known record-breaker.

There is expectancy in the air. The people who are here appear to be deeply concerned with what the Governor may say. Ninety-nine per cent of them are Smith people, and they want their candidate to get off on the right foot in his initial address on national and international affairs.

Fell Under Horses

NELSON, Aug. 21.—A fractured spine sustained when a horse stepped on him Friday, caused the death of Everett Childs, of Burton, fifteen minutes after he was admitted to Kootenay Lake General Hospital here shortly after 11 o'clock last night. Childs fell underneath his horse from a wagon.

WAR MINISTER RESIGNS

SOFIA, Aug. 21.—War Minister Ivan Volkoff tonight resigned from the cabinet as the result of charges by some of his colleagues in the ministry that he was connected with the Macedonian revolutionary menace.

HORSE ENTRY AT FAIR MAKES SHOW NOTABLE

Cattle Judging Begins, With Fine Range of Dairy Stock—
Fine Display Promised in Jersey Classes

ATTENDANCE AT FAIR IMPROVES

When Victoria was promised its biggest fair yet for 1928, was no boast was made as to what continuance of the favorable weather prevailing all records from an attendant point of view will easily be broken. The advantage of starting the show off in full swing on the Monday has already been felt by the increased receipts, which, if continued, will encourage and help the executive to make an even better show next year. Few outside the management have any idea of the expense involved in getting together such a show.

The prize money runs into large figures, and it is only by making this department attractive that so many owners and breeders of high grade stock, as well as the growers of produce can afford to spend the time and effort necessary to successfully take part in a first-class exhibition. For such Victoria's Provincial Exhibition has become.

Special stuff no longer satisfies, and the large crowd that attended yesterday was an index of the city's appreciation and an evidence of determination to support a local institution that has grown to an importance not equaled by many other Victoria activities.

Help for Farmer Greatest Problem Says Mr. Hoover

WEST BRANCH, Ia., Aug. 21.—Speaking here tonight, Herbert Hoover pledged the farmers of the country that if elected president he would call the leaders of agricultural thought to join in the search for common ground upon which to act in solving what he regards as the greatest economic problem in America.

He elaborated upon Federal financial aid to farmer co-operative corporations to dispose of crop surpluses, and on development of waterway outlets from the mid-west to the Gulf of Mexico and Atlantic Coast.

PUBLIC SCHOOL BOYS ARE VISITING JASPER

JASPER, Alta., Aug. 21.—To get a glimpse at first hand of the size and possibilities of this particular portion of the new world, thirty-four young men representing those strongholds of tradition, the public schools of England, arrived in Jasper this morning. They are traveling across Canada under the auspices of the School Empire Tour Committee, composed of the governors and headmasters of the public schools of Britain, and sponsored by Colonel Amery, Secretary of State for the Dominions.

Mr. W. E. Magee Dies

VANCOUVER, Aug. 21.—Walter Robert Magee, forty-eight, son of the late Mr. and Mrs. Hugh Magee, pioneer ranchers in Point Grey, died Tuesday in the General Hospital. He was born in Victoria and had been engaged in mining and prospecting in the vicinity of Stewart for a number of years.

WAR MINISTER RESIGNS

SOFIA, Aug. 21.—War Minister Ivan Volkoff tonight resigned from the cabinet as the result of charges by some of his colleagues in the ministry that he was connected with the Macedonian revolutionary menace.

PLAN EXTENSION OF ART GALLERY

Increasing Number of Exhibits at Fair Impresses Committee With Need of More Wall Space

CHILDREN'S SHOW EXCELLENT WORK

One of the most significant comments in connection with the art exhibit at the Fair this year is the plan already under consideration to extend the alcove gallery completely round the hall next year. This means that despite the greatly increased accommodation, there is still insufficient room to house the rapidly increasing entries.

It is perfectly true that whereas the art display proper is better than ever before, and more suitably exhibited, the competing entries are still shown to some disadvantage. The proposed alcove gallery would solve the problem of the required additional wall-space. Children's and school exhibits invariably attract a great amount of interest, and should be in the best possible accommodation.

This year the school's exhibit is about double that of last year. Maps, water color paintings, black and white drawings, conventional design, lettering, etc., make up a collection of juvenile expression which is extremely interesting. Neatness, grace, and originality are shown in the winning penmanship entries of Madie Thompson and Phyllis Greaves; Brownie Wingate and Grace Tuckey employ widely divergent subjects for their winning brushwork entries, the former using a conventional flower design, the latter free tree silhouettes, to form frieze patterns for their winning other purpose. Dorothy Terry won the first prize in the fourteen to seventeen years drawing section with a meticulously neat drawing of a trillium; Joyce Appleyard ranked second with an almost equally careful drawing of a conch shell.

ACQUIRES NEW INTEREST

Map drawing in recent years has acquired a new interest with the practical knowledge of everyday history which the child is taught about the respective parts of the world. Coline Cochrane, who has taken the first prize for a map of the Dominion of Canada, has not only shown the main provincial divisions, coast lines, rivers, lakes, etc., but has hinted something of the character of the industry and natural products and resources. The map has the quaint interest of a medieval navigator's chart, save that the dragon and monster of the unknown seas is replaced by the known fur-bearing animals, indicated by little dabs of fur stuck out in the trapping districts of the North; or by the walrus of the coast of Vancouver Island; the caribou of the Yukon and Mackenzie; the Indians and totems of the British Columbia coast; and the reindeer of Labrador. In one corner of the map there is a "key," which explains the meaning of the various markings on the map, such as for instance, being indicated by little squares of black. Grace Tuckey, who won the second prize, adhered to the more conventional type of map drawing, and the work is beautifully done.

COMPETITION EXTENDED

The same competitions are offered in sections 5 to 8 inclusive, for fourteen years and over, and of age. Jean Groos is winner of section 6 (brush work) with a colored picture of a rooster. A particularly interesting picture, the winner of the second prize is that by Pat Cox, the little boy from Cape Bessie, whose work attracted a good deal of attention last year. This young artist, cut out from schools and ordinary tuition, took a great interest in the various craft work held past his girl home, and sent a remarkably attractive little collection of drawings which immediately won recognition.

This year he has sent several more pictures. A silhouette of a three-masted schooner won him the second prize in the brushwork competition of his section.

Mavis Goddard and Kathleen Torrens are winners of the first and second prizes in section 7, the former with a pencil drawing of a horse's head, and the latter with a drawing of two trilliums. The former has also taken first prize with a special entry, a map of the four Western Canadian provinces. This, like Colin Cochrane's map of the Dominion, has a key to the mineral products, etc. Mavis Goddard failed to get the prize last year only because the entry was made in the wrong class.

Sidney School this year has secured an important prize, viz., a diploma in section 11, with a nice little entry of raffia work by children between six and ten years of age. It is curious, however, that no other entry was made in this section.

pastel of a smiling ebony-skinned and woolly-headed picaninny. Either of these pieces would be welcome in any art collection. This also applies to Bayward Young's "November on the Thames," which depicts a dark, slimy fog of the great river, with St. Paul's and London's lesser skyline drifting in the yellow murk.

Air Vice-Marshal In Narrow Escape Off Sydney, N.S.W.

(Vancouver Province Cable)
SYDNEY, N.S.W., Aug. 21.—The British air vice-marshal, Sir W. G. Salmon, narrowly escaped disaster when leaving Sydney for Brisbane on Sunday in a supermarine plane, according to residents of the suburb of Manly.

The plane flew dangerously low with the pilot apparently fighting desperately to retain control. The radio aerial was believed to be trailing and struck the weather board of a house, causing bottles and crockery to smash to pieces. The aerial next struck electric light wires, causing a shower of sparks and an explosion.

After skimming several houses the supermarine landed on the sea, repairs were effected, and the flight continued.

LOAN COLLECTION IS ADMIRABLE

Fine Display Shows Artistic Appreciation of Vancouver Island Exhibitors

With so many attractions on all sides at the Provincial Exhibition, it is still more profitable to spend an hour with the art exhibit in the second story of the Manufacturers Building at the Willows and an hour soon passes, especially if one is fortunate enough to encounter Mr. James Christian, the well-known artist of Shawinigan Lake, who can often be found there, who is a true friend to the young artists who are attracted to modern treatment and work and modern teaching methods.

Most fascinating of all—using the word in the true sense of the word—is the loan collection, where it does not need an artistic education to gain pleasure from a number of pictures of outstanding merit which stand out from the walls where an exceptionally fine collection of pictures is hung. Among them are two noteworthy works by Paris artists, lately made Associate of the R.S.A., which are examples of delicate handling as well as beautiful treatment of subject matter. The pictures should be seen by every young student to whom, as examples, they are of immense value, being loaned to the exhibition by the artist himself. One is a picture of a girl who though without extraordinary personality and wearing a hat that is by no means Parisian, is called a picture of perfect painting. It is by Mignon and essentially French in treatment, depth and feeling. The other is a picture of a young man, the head of which is beautifully modelled.

Of great interest, especially to those who have read "Gulliver's Travels," are the original drawings from which a well-known edition was illustrated. These pictures, including that of the giant, called "The Haunted House," with the shadowy figure of a woman creeping through the bridge in front of a sombre mansion. In the same artist is a Canadian scene, "On the Creek," of exceptionally good color and texture, and a French peasant treated in a simple, direct, and original way. The artist is a Frenchman, and the original is a delicate sketch of a woman.

By George Gibson are a couple of fine interiors as well as an exquisite portrait study. Very vivid and delightful are some brilliant flower studies sent by Mrs. Barker, of Seattle, whose work is characterized by exceptional color and feeling. Mavis Goddard is the painter of several excellent water colors, all in modern style, of which a special example may be seen in Mr. Andrew Gamble's water color of Edinburgh Castle.

A unique and beautiful exhibit is a series of pictures in sewed work by Mrs. Christian, one of which was purchased on the first day of the exhibition. Special mention must be made of the work sent by the students of the Vancouver Art School, all of which is of high quality.

FEELS LIKE NEW PERSON

Lydia E. Pinkham's Vegetable Compound Helped Her So Much

"I had inward troubles and at times my face would look so puffy that it annoyed me. I was so dull and sleepy that I did not feel like doing anything and was not particular whether my work was done or not. I learned about Lydia E. Pinkham's Vegetable Compound in the Toronto Globe and my sister told me it was extra good medicine. I found it so too, as I now feel bright and active and my face is clear and healthy."—MIRIAM MATTHEWS, R.F.D. No. 1, Elmira, Ontario.

For Change of Life
"I took the Vegetable Compound to help me pass the Change of Life. For two years I have had hot flashes, nervous feelings and prostration but am getting along fine now. I think the Vegetable Compound is good and you can use my name."—Mrs. D. Ferguson, 342 Cloverdale Avenue, Victoria, B. C.

Conservative Cabinet Enters Upon Function To Govern Province

Continued from Page 1
do all in their power to give a good account of themselves.

The Administrator, before concluding the proceedings, spoke of the presence of so many ladies at the ceremonies. It was an evidence of the ever-increasing interest of the ladies in matters of this kind. The ceremony took place in the Speaker's suite of rooms at the Parliament Buildings. At 3 o'clock the Administrator arrived, where the ministers and quite a gathering of their friends had assembled for the event.

CEREMONIES CARRIED OUT

Assisted by J. L. White, Deputy Provincial Secretary, the ceremonies were carried out by the Administrator, who, according to the list of ministers submitted to him by the Premier, administered the necessary oaths that go with the installing of the new Government.

Hon. W. A. McKenzie and Hon. J. Hinchliffe were not present when the other members of the Government were sworn in, and were duly installed in office later in the rooms of His Honor in the building. There were present, among others, at the ceremonies: Mrs. S. F. Tolmie, the Misses Tolmie, Mrs. R. H. Pooley, Mrs. Howe, Mrs. Shelly, the Misses Shelly, Mrs. Loughed (mother of the Minister of Public Works), Mrs. Burden, Miss Atkinson, Messrs. Shelly (sons of the Minister of Finance), Mr. and Mrs. A. Johnson, of Prince George, and Mr. J. A. Blair, of Vancouver.

Fascist Paper Jeers at Pact Outlawing War

ROME, Aug. 21.—Under the heading "The Great Hypocrisy," the extreme Fascist paper, Il Tevere, ridicules the forthcoming peace pact signing at Paris on August 27. "The arrival of Secretary Kellogg much resembles that of President Wilson, a prophet abroad," the newspaper says. "Very probably the crowds will be lacking which were the protagonists of the famous Wilsonian intoxication. The crowds have learned much during the past ten years and prefer a game of football or a good drinking bout. But the welcome will be as pyrotechnic as the former one, and pacifist literature will inundate this old incurable Europe."

Lord Lovat Confers With Ontario Premier On Migration Problem

TORONTO, Aug. 21.—"We were just discussing preliminaries. Lord Lovat is going to stay over until Friday and we will have a further conference before he leaves," said Premier Ferguson, in connection with the conference between himself, Hon. John S. Martin, Minister of Agriculture, and Lord Lovat, British Under Secretary for the Dominions on immigration from British.

The Premier stated that no obstacle had been encountered in the course of the discussion. Lord Lovat, proving a very tactful and affable man and a splendid representative of the British Government, Lord Lovat, himself, as he was leaving the conference, laughingly intimated that some points had cropped up on which complete agreement had not been reached as yet.

BUDDING DIPLOMATS

OTTAWA, Aug. 21.—Appointments of Lester B. Pearson, Toronto, and Hugh L. Kennedy, Vancouver, as first and third secretaries, respectively, of the Department of External Affairs, were announced today by Minister of External Affairs, Mr. J. G. Lethbridge. Both will be available for service in Tokyo. No decision as to where they will be stationed will, however, be made until the return from Geneva of Dr. O. D. Skelton.

CONJURER SAW'S HIS WIFE IN TWO

An enjoyable evening was spent at the home of Mr. and Mrs. G. Schwabe, 812 St. George, called day. Professor Cecil Barrie, the conjurer, assisted by his wife, Teenie Barrie, gave a delightful two-hour program in which he demonstrated his famous trick of sawing his wife in two. After this Mr. Lu Convera, accompanied by Miss Orr, rendered several solos, including "Take Thou This Rose" and "Love You." Later in the evening a delightful dance was held and refreshments were served at the ballroom. Those present were Mr. and Mrs. Cecil Barrie, Australia; Mr. and Mrs. G. Schwabe, Miss Mary Schwabe, Miss Edythe Johnson, Mr. George Young, Miss Mildred Schwabe, Miss Margaret Cashman, Vancouver; Mr. Albert Mellish, Vancouver; Mr. J. W. Griffiths, Miss Hilda Griffiths, Master Ray Griffiths, Mr. and Mrs. W. A. Burnett, Mr. and Mrs. J. Sherrett, Mr. and Mrs. A. H. Kennerly, Mr. and Mrs. D. R. Park, Miss Florence Wright, Mrs. J. A. Wright, Miss Nancy Johnson, Miss Elmer Johnson, Mrs. Wilcox, Mrs. Mrs. Ludgate, Mr. Lu Convera, Miss Orr, Miss Kay Nesbitt, Miss Betty O'Brien, Mr. Hugh Rider, Mr. and Mrs. Greenwood, Mrs. Mrs. E. E. Evans, Mr. and Mrs. L. H. Sampson, Mrs. Gilmour, Master Donald Sampson, Miss Maureen Sampson, Mr. and Mrs. W. H. Hendley, Mr. and Mrs. A. Hallam, Mr. and Mrs. Robertson, Mr. and Mrs. E. Aleock, Master Harvey Aleock, Mr. Bill Huxtable, Miss Dorothy Daniels, Dr. and Mrs. Lough, Dr. Ken Darbyshire, Mrs. O. Copas, Miss Grace Copas, Miss Dorothy Mountain, Miss Kathleen Shaw, Miss Eileen Shaw, Mr. and Mrs. W. Thorne, Jr., Mr. and Mrs. W. Thorne, Jr., Miss Nellie Loft, Mr. George Loft, Mr. and Mrs. A. H. Kennerly, Mr. and Mrs. D. R. Park, Miss Florence Wright, Mrs. J. A. Wright, Miss Nancy Johnson, Miss Elmer Johnson, Mrs. Wilcox, Mrs. Mrs. Ludgate, Mr. Lu Convera, Miss Orr, Miss Kay Nesbitt, Miss Betty O'Brien, Mr. Hugh Rider, Mr. and Mrs. Greenwood, Mrs. Mrs. E. E. Evans, Mr. and Mrs. L. H. Sampson, Mrs. Gilmour, Master Donald Sampson, Miss Maureen Sampson, Mr. and Mrs. W. H. Hendley, Mr. and Mrs. A. Hallam, Mr. and Mrs. Robertson, Mr. and Mrs. E. Aleock, Master Harvey Aleock, Mr. Bill Huxtable, Miss Dorothy Daniels, Dr. and Mrs. Lough, Dr. Ken Darbyshire, Mrs. O. Copas, Miss Grace Copas, Miss Dorothy Mountain, Miss Kathleen Shaw, Miss Eileen Shaw, Mr. and Mrs. W. Thorne, Jr., Mr. and Mrs. W. Thorne, Jr., Miss Nellie Loft, Mr. George Loft, Mr. and Mrs. A. H. Kennerly, Mr. and Mrs. D. R. Park, Miss Florence Wright, Mrs. J. A. REGISTER AT HIGH SCHOOL IS NOW OPEN

Principal Ira Dilworth Announces Office Hours During Which Interviews May Be Obtained

ACCOMMODATION WILL BE TAXED

Preparations for the reopening of the Victoria High School are already well under way. Mr. Ira Dilworth, principal of the institution announced yesterday. Present prospects indicate that the enrollment will be very much larger than ever before and that the accommodation will be seriously overtaxed.

In consequence of this it is imperative that intending pupils who have not already registered or informed the school authorities of their intentions, should do so at once. Mr. Dilworth stated.

The principal will be in his office Mondays, Tuesdays, Thursdays, Fridays and Saturdays from 10 a.m. to 12 o'clock noon, and on Wednesdays from 1.30 o'clock noon to 3.30 o'clock to meet parents and pupils who for any reason may require personal interviews.

Children's Judging New Feature of Fair

The Judging Competition open to all boys and girls under 16 years of age, who are attending any school, private or public, will be held in the Main Building of the Fair this morning at 10.30 o'clock, when it is hoped that there will be a large turnout to take part in this new feature of the Exhibition. The lucky boy or girl will receive \$5, the second \$3 and the third \$2. Messrs. E. W. White, G. Clarke and W. Y. Nimmo will have charge of all the arrangements for this event, which will include flowers and vegetables. Entries are free.

WANTS TO SEE PUMP IN USE

NANAIMO ALDERMAN BELIEVES IN UNLIMITED WATER SUPPLY

Council Decides on Restrictions—Traffic Problem Also Discussed at Meeting

NANAIMO, Aug. 21.—The City Council held its regular meeting last evening with His Worship Mayor Busby presiding. The two principal subjects discussed at the council meeting were increased automobile traffic and shortage of water. A letter was received from Mr. James Robertson, of the Vendome Rooms, corner of Bastion and Commercial Streets. Mr. Robertson complained in his letter that the horns and sirens of automobiles were a nuisance to his lodgers, and asked that the Council take steps to abate the noise. His Worship agreed that the noise was bad, but he saw no remedy. He also pointed out the danger that has arisen through cars being parked at times on both sides of Bastion Street, between Skinner and Commercial. This question, he said, might be taken up with the police. Alderman Hart said there was something to be done about the "honking." He suggested that stop signs be printed on the streets. This had been tried in Victoria, and found successful, although there had been many summonses issued during the first week. Alderman Smith was also in favor of having signs placed, and on motion, it was decided to have this done at once.

WATER GETTING LOW

In regard to the water question, Mayor Busby thought restrictions should be put on as he said he had visited the dam and found the water supply getting quite low. Alderman Hart, chairman of the waterworks committee, objected. He said: "You have a pump which cost the citizens something like \$40,000, and you have 800 gallons of oil out there to use. You also have a man specially engaged to run the pump, and I would like to see it put to work." Continuing, Alderman Hart said he believed in giving the people of Nanaimo all the water they wanted, "even if it cost a thousand dollars a day." They had bought the pump to do away with restrictions.

As Alderman Hart continued, it was evident that he had little faith in the pump, and he would like to see a trial of its efficiency made. He intimated that it had never been operated but for one week, and that when Foreman Shepherd personally supervised its working, and after thousands of dollars had been spent on repairs. Recently, he said, a report had come in saying the pump was ready to work, and he wanted to see if it would. The motion was carried, however, the only one voting against it being Alderman Hart, and from this date sprinkling will only be allowed a couple of hours in the evening.

While speaking of water, following the foreman's report on expenditures, Alderman Hart drew attention to the fact that three large growths had been taken from the pipes, and said these things should not be kept quiet, but made public. One growth, he said, nearly filled the pipe. The city foreman reported an expenditure on streets during the two weeks ending August 18, at \$1,138.20, and on waterworks, \$141.17. Alderman Cavilsky, chairman of the financial committee, issued a note of warning to the various committees regarding expenditures in future. The financial position of the city, he said, would at present allow only for current expenses of each committee, with the exception of the water committee, to whom enough money would be available to complete their work on Roberts Street.

Members of B.C. Government Are Sworn In

Hon. S. F. Tolmie, Premier and Minister of Railways

Hon. R. H. Pooley, Attorney-General.

HON. S. L. HOWE
Provincial Secretary.

HON. JOSHUA HINCHLIFFE
Minister of Education.

Minister of Lands.

HON. R. W. BRUHN
President of the Council.

MR. BREWER IS A.O.F. LEADER

VICTORIA MAN TO HEAD V.I. DISTRICT FORESTERS DURING NEXT YEAR

Duncan Is Named 1929 Convention City—Mayor Carl Pendray Welcomes Delegates Here

Mr. G. M. Brewer, of Victoria, will direct the destinies of the Vancouver Island District Ancient Order of Foresters for the next twelve months, having been chosen yesterday at the twelfth annual convention as district chief ranger for the 1928-29 term. He succeeds in that post Mr. Edwin Matthews, also of Victoria.

Other officials elected were Mr. J. W. Atkinson, of Ladysmith, district sub-chief ranger; Mrs. Eleanor Nunn, of Victoria, district treasurer; Mr. George W. Andrews, of Victoria, district secretary; and Mr. Edwin Matthews, of Victoria, junior past district chief ranger. The 1929 convention of the organization will be held in Duncan, commencing on the third Monday in August.

The convention here opened on Monday afternoon in the A.O.F. Hall, Cormorant Street, with District Ranger Matthews presiding. Delegates were in attendance from Victoria, Cobble Hill, Duncan, Ladysmith, Lantzville and Cumberland, representing twelve courts, with a total membership of 1,265.

His Worship Mayor Pendray extended a civic welcome to the visiting Foresters, and the response was made by Mr. J. W. Atkinson, of Ladysmith, on behalf of the delegates.

Three business sessions were held, culminating with the election of officers yesterday afternoon. The vis-

HON. R. L. MAITLAND
Minister Without Portfolio.

itors were taken on an automobile tour of the city and adjoining districts, during which visits were made to the Observatory and Butchart's Gardens.

Mr. W. H. Coates Dies

LONDON, Aug. 21.—William Hodges Coates, chairman of J. & P. Coates, famous thread manufacturer, died today. He was the only surviving son of the late Archibald Coates, first chairman of the company. William Hodges Coates was reckoned a millionaire in English pounds. He was the twelfth man of that wealth in the family since the business was started in a small way 104 years ago.

MANY ENTRIES AT GOAT SHOW

TOTAL OF 167 GOATS, OF FOUR DIFFERENT BREEDS, ARE ON EXHIBIT

Judge Freeborn Says Nubians Much Better and Toggensburg Show More Uniformity

A total of 167 goats have been entered in the goat show at the Provincial Exhibition at the Willows. This comprises twenty-seven Nubians, eighty-five Saanen, forty-five Toggenburgs and ten Angoras.

Judge S. G. Freeborn, of the Dominion Livestock Branch at Calgary, said he was struck with the progress made since he was here three years ago. Nubians were particularly much better, and Toggenburgs showed more uniformity in type.

He said that this was the best goat show he had seen, for quality and keen competition in the Saanen classes.

Toggenburgs will be judged on Wednesday, while the milk competition will be finished on Wednesday evening. Amateur judging competitions will be held on Thursday at 2 p.m.

Following are yesterday's results of the judging:

PUREBRED NUBIAN
Number of Exhibits in Parenthesis
Mature (5)—1, 2, 3, 4 H. G. Morson, Burnaby; Shirley Juno, Iris, Marie, Nina.
First kidding (4)—H. G. Morson, Shirley, Thelma, Roma, May.
Yearlings—1, Tyler's Goat Dairy; Black Beauty.

"THE COLONIST IN NEW YORK"
The Colonist is delivered to the principal New York hotels, on order only, by the Long Acre Newspaper Delivery. Order may be given to the Mail Clerk of your hotel or telephoned to Longacre 6649.

Kids (5)—H. G. Morson; Shirley Vera, Nancy, Audrey, Violet.
Senior champion purebred Nubian—H. G. Morson; Shirley Thelma.
Junior champion purebred Nubian—H. G. Morson; Shirley Vera.
Champion purebred Nubian, any age—H. G. Morson; Shirley Thelma.
GRADE NUBIAN
Mature (12)—1, C. W. Newbury; Mira.
First kidding (3)—1, Muriel Bligh, Leawood; 2, W. L. Perrier, Nancy.
Yearlings (2)—1, Tyler's Goat Dairy; Tyler's Mira.
Kids (5)—1, Miss Mott, Juliet; 2, C. W. Newbury, Orindos and Tip Top; 3, Tyler's Goat Dairy, Mickey.
Senior Grade Nubian champion—Muriel Bligh, Leawood.
Junior Grade Nubian champion—Miss Mott, Juliet.
Champion Grade Nubian, any age—Miss Mott, Juliet.
Grand champion Nubian—H. G. Morson, Shirley Thelma.

PUREBRED SAANEN
Kids (4)—1, Miss Harvey, Donna Cordova; 2, Mrs. Blakeney, Fair Lady of Deerfield; 3, 4, T. Pearce, Gilt Edge and Bellita of Deerfield; 5, C. W. Newbury, Sago; 6, J. E. Richards, Victoria Viny.

Wednesday, August 22, 1928

THE PROVINCIAL CABINET

A feature of the Conservative Cabinet sworn into office yesterday is that there will be full representation on the Executive Council. There are eight Ministers holding portfolios and two additional Ministers without portfolios and consequently without salary. Including the Premier the Cabinet will thus consist of eleven members. Dr. Tolmie believes each Minister should have the opportunity of giving undivided attention to the duties of a single department. As compared with what has been happening during recent years, when duties have been duplicated, and the task of two or even three portfolios assigned to one Minister, there should be more specific attention directed in the future to the administration of departments.

Mr. R. H. Pooley, the new Attorney-General, was the obvious choice for this post. Mr. Pooley has served a long apprenticeship in politics. He has rendered service of the highest value to the party and he was the first of the Cabinet to be asked to accept office by the new Premier. All who know Mr. Pooley, and their name is legion, speak enthusiastically of his qualifications for the post of first law officer of the Crown in this province. He is admirably informed on the various matters which will come within his purview and jurisdiction. He knows exactly what steps have to be taken to bring about much needed reforms and he has the strength of character to carry these to fruition. He has been fearless in his utterances in the Legislature and on the platform and that characteristic will mark his administration in office. Dr. Tolmie deserves congratulations for having persuaded Mr. Pooley to accept the post of Attorney-General as events will justify through the benefits that will ensue to the administration of the law in the province.

The new Minister of Finance, Mr. W. C. Shelly, is one of Vancouver's outstanding business men. His popularity and the recognition of his abilities led to his heading the poll in that city. From the first it was believed that one of the most important portfolios would be offered to him and there is none for which he is more suited than that of finance. Mr. Shelly has been an exceptionally busy man during his career but he is abandoning the active supervision of his private interests to give his undivided attention to the financial affairs of the province. His acumen, his financial knowledge and the administrative ability which he has shown in building up a great business in the province will be assets to British Columbia and a tower of strength to the new Cabinet.

The new head of the greatest of the spending departments is Mr. N. S. Loughheed, the member-elect for Dewdney, who becomes Minister of Public Works. He is a man of known and proved ability, possessed of a very considerable knowledge of provincial affairs. Mr. W. Atkinson, the member-elect for Chilliwack, becomes Minister of Agriculture. He is interested in stock in the Fraser Valley, well informed on agricultural matters and highly popular in the richest agricultural district of the province. In his task of promoting the industry he will have behind him the rich and ripe experience of the Premier himself who is determined to build up British Columbia in an agricultural sense and make it more self-supporting. Mr. W. A. McKenzie, of Similkameen, becomes Minister of Mines. This appointment will be welcomed by mining men all over the province.

Victoria is honored in having Mr. J. Hinchliffe appointed as Minister of Education. This is a subject in which he has interested himself intensely ever since his election to the Legislature. In the administration of this department he believes that reforms are desirable, particularly in some changes which could be made with advantage in the textbooks used in the schools and possibly also in amended curricula. Mr. Hinchliffe can be relied upon to bend all his energies to make the educational facilities such that they will equip young people for careers in this province. If he is able to do this he will have accomplished much. At present too many of our youths, after securing their education here, go elsewhere to perform their tasks in life, which means loss to the economic well being of the province. Mr. Hinchliffe will have guidance in the task which he is undertaking in the report of the Educational Survey and the recommendations it contains. So far that report has only been acted upon in an infinitesimal way although it is some years old.

The new Provincial Secretary is Mr. S. L. Howe, of Vancouver, who is the member-elect for Richmond-Point Grey. Mr. Howe has long been a prominent figure in Vancouver's political circles. Two members of the new Cabinet will act without portfolios—Mr. R. H. Bruhn, of Esquimalt, and Mr. R. L. Maitland, of Vancouver. Of the Vancouver members-elect two will thus be in the Cabinet. The other constituents or districts represented are Victoria, Esquimalt, Saanich, Dewdney, Okanagan, Chilliwack, Salmon Arm, Prince George and Richmond-Point Grey. Okanagan will also, if the decision of the Premier has weight with the Legislature, as it undoubtedly will, provide the Speaker of the forthcoming Legislature in the person of Mr. J. W. Jones. His name will be proposed for the Speakership when the next session meets and the desire is that Mr. H. Despard Twigg should act as his deputy.

The new Cabinet is a well balanced body. It contains some names new to politics, but they are of those closely versed in provincial problems and successful men in their different spheres of action. Those members who have had legislative experience and now hold Cabinet rank have already proved their trustworthiness in the political arena. Dr. Tolmie has surrounded himself with the full quota of advisers

which the constitution of the Government of this province allows. He will be Minister of Railways, but otherwise he leaves himself free for the general direction of affairs, a wise decision because the calls upon the time of a Premier are too many to permit of his giving the attention necessary to any particular portfolio in the way of routine administration. The new Government is now fully launched in power. Under the capable leadership of Dr. Tolmie and with the moulding of the policies which he has in view there should be a new era of progress about to open in the history of British Columbia.

POPULATION PROBLEM

The Dominion Bureau of Statistics estimates that the natural increase in Canada's population during 1927 was 128,469 as compared with 125,296 in 1926. The births were 233,605 and the deaths 105,136. Quebec shows the largest birth returns there being 83,064 infants born there in 1927, as compared with 67,671 in Ontario. In Quebec the birth rate is 31.9 per thousand; in Ontario it is only 21.2. The Bureau of Statistics estimates that Canada's population during 1927 increased from 9,519,000 to 9,658,000, or an increase of 139,000. Of this increase, natural increase accounts for 128,469. Thus there is an increase of but little over 10,000 which is left to be accounted for by immigration. In immigration, however, for the eight months ending on November 30 last, Canada received 124,319 immigrants. Of these, 45,012 came from Britain, 18,663 from the United States and 60,637 from other countries. In other words, these figures imply, adding natural increase and immigration figures (for eight months) together, that Canada's increase in population during 1927 should have been 252,831, whereas, according to the Bureau of Statistics, the gain has only been 139,000. The loss is accounted for by emigration from the country, an exodus which continues under the policies of the Government in power.

Woman in the Old Land has gone so far in winning her rights, and something more, that she is described as "the spoilt darling of the law" by Professor E. G. Montmorency. The married woman, he says, has now more rights than her husband. Her civil wrong-doing before marriage can fall on the "hapless man" and her liability to strangers in the way of contract is limited to her separate estate, and some of her crimes can be imputed to the concern of her husband. She is the political equal of her husband, may follow him secretly to his place of business and cancel his Parliamentary vote. In concluding his summary of what woman has achieved in this respect Professor Montmorency says, "there are no more Benedicts within the narrow seas."

H.M.A.S. Australia, flagship of the Commonwealth Navy, has been visiting Montreal and other Eastern Canadian ports. The British light cruiser Despatch and Durban are on the Canadian Pacific Coast in the course of their duty in showing the flag. It is a long time since a Canadian war vessel visited either Britain or one of the Overseas Dominions; in fact this inter-Imperial gesture of amity has yet to be shown. This country owes scores of return visits for courtesies shown her but before she can pay them it is necessary for her to have some cruisers that could perform the pleasing task.

Cigarettes constitute the most popular kind of smoking in Great Britain, just as on this continent. In the course of some seventeen years Britain has changed from a pipe-smoking to a cigarette-smoking nation. Now the imports of cigarette tobacco are 58.5 per cent of all tobacco, pipe tobacco is 40 per cent, and cigars 1.5 per cent. Women's addiction to smoking is held to be responsible for the increasing popularity of cigarettes, their taking to the weed having a reaction on men and leading them to emulate the cigarette habit.

THE BRITISH BURDEN

Since 1914, through the war and since, Britain has counted her gold as dust to pay her share in the war. Unable to collect from her own debtors, and willing to let them go scot-free if that could have been arranged with justice to her own people, she has been taxing herself with to pay every cent of her own debts and to pay for policies of reconstruction. It is the sort of thing that his made England what she is. The "word of an Englishman" means something in the world, and one of the things that it means is that British character is accepted at 100 per cent and re-echoes in the stability of British credit all over the face of the globe.—Ottawa Journal.

It is the slowest pulsation which is the most vital. The hero will then know how to wait as well as to make haste. All good advice with him who waits wisely.—Henry David Thoreau.

FINE DISPLAY WINS PRAISE

Exhibits of Farm Produce,
Fruit and Vegetables
Have Improved on 1927
—Entries Also Increase

MORE ARTISTIC ARRANGEMENT

In the main building at the Victoria Provincial Exhibition are the flower, fruit and vegetable classes, comprising the best show of this kind ever staged in Victoria. Not only there more entries in every class, but everything is of higher quality, making competition keener, and more care, too, has been taken in the arrangement of the exhibits and their display.

A small but attractive display which is given a prominent position among a colorful riot of flowers that takes up the centre of the hall is contributed by the classes for decorative window boxes in which the first prize has been won by Mrs. George Atwood with a beautiful box in which salvia, petunia, geraniums, calceolarias and lobelia are attractively arranged. The gladiolus display, itself a blaze of color, contains two striking groups by Mr. R. M. Palmer, of Cobble Hill, who receives this year's gold medal in the group of twenty-four or more varieties. Mr. D. D. McTavish (last year's medalist) receives second award for another beautiful group.

An innovation this year is a class for fifty square feet of cut flowers of mixed variety. Mrs. Evan Jones, of Victoria, taking the first with a group containing the largest number of different flowers. Mr. James Urwin has an equally fine display in this class, but has a few less different varieties and deservedly takes the second prize.

SEEDLINGS VIE WITH U.S. The table decoration brought forth some tastefully arranged exhibits, the first prize going to Mrs. F. B. Robinson, of a fine collection of box, cosmos, gypsophila and maidenhair fern. No one attending the show should miss the display where Mrs. Brown's Victoria Nursery takes the first prize for an exhibit containing some wonderful seedlings which completely refute any idea that it is impossible to grow anything special in California for dahlias seed. Among this group are some beautiful new varieties, one named after that popular actor, the other named after a California flower. Others newly named include "Mount Baker" and "Red Emperor". A pretty collection of wild flowers by Mrs. Betty Thorne won the prize for wild flowers gathered and arranged by children.

Among some fine decorative groups of flowers, plants, ornamental trees and shrubs, a very effective exhibit near the entrance at the left by the Layrite Nurseries, consisting of a large collection of the Victoria garden plants, grown in the open without any special attention. These roses are against a background of shrubby plants, and some fine finger lilies add a touch of deep orange to a colorful display.

In the right-hand corner of the building will be found the display of the Victoria Horticultural Society, consisting of many specimens of cut flowers, among which are some wonderful delphiniums arranged in the setting of a miniature rock garden. Notable among a large plant collection are some fine rex begonias, specimens of which are included in the Victoria garden plants. The best collection, and Mr. J. Gunnin, of Hamilton Davenport the first prize in this section. Among a large assortment of handsome ferns, Mrs. A. Price's exhibit took first for the best collection, and Mr. J. Gunnin, of Hamilton had the best specimen fern. The best specimen plant was shown by Mr. C. P. Kenny.

VEGETABLE CLASSES STRONG Vegetable classes are strongly supported, out of proportion to any previous entries. Classes that last year were considered strong with a dozen or so entries have this year reached the thirty mark, and classes that had several entries have increased to the neighborhood of a dozen. Very well supported are the classes for the homey but useful onion, in which there are thirty-one entries. The potato exhibit is of exceptional merit and visitors from other parts of Canada and the United States have commented on the excellent results achieved by growers of potatoes on Vancouver Island. Very excellent, both as an artistic exhibit and as a fine quality exhibit, are the district contributions which form an attractive display and which call for real merit as the competition is keen owing to the large cash prize which is offered in this section.

In the far right-hand corner of the building is the vegetable display by the Victoria Horticultural Society, consisting of a collection of every kind of vegetable possible to think of arranged to great advantage. The fruit exhibit has doubled in size since last year, and comprises a wonderful section. In prominence an exhibit sent by the Layrite Nurseries, consisting of fruit graded and packed in most attractive manner and consisting of pears, apples, prunes and plums. Seed and grain occupies a corner, and is a section that has grown from one of two exhibits to consist of several well-filled classes. In the main building, most of the awards in the well-filled classes have gone to Vancouver Island exhibitors, despite strong outside competition. This important section, where the entries are strong and the quality of the produce is high, is the heart of the show, and it is the heart of the show, and it is the heart of the show.

Wheat, fall, 1 bushel, white—T. K. Harrop.
Wheat, Spring, 1 bushel—E. R. Harrop.
Rye, 1 bushel—George Sangster.
Oats, 1 bushel, white—T. K. Harrop.

Fine China Is Always Appreciated

It is no exaggeration to say that at Weiler's there is an endless variety of fine English China. The patterns present an ever-changing display of colorful creations and never a week passes but new and interesting designs are added. Each of these patterns is a new selection—something never before shown in Western Canada—and shown exclusively at Weiler's in Victoria.

AN OVERSIGHT

Sir,—Regarding the letter you published yesterday over the signature of Mr. R. H. Hunter Weston, we wish to have it pointed out that the incident in question was due entirely to an oversight on the part of our orchestra, and feel deeply in accord with Mr. Weston's letter in this connection.

GEORGE SMITH WILL APPEAL

Man Sentenced to One Year in Prison to Take Case to B.C. Court of Appeal at October Sitting

SEEKS REVERSAL OF CONVICTION

George Smith, who was yesterday sentenced by Magistrate George Jay in the city police court to one year's imprisonment on a charge of wilfully damaging his automobile at Colquhoun Street on August 12 with intent to defraud, will appeal against his conviction, his counsel, Mr. Richard C. Lowe, told The Colonist last night.

Mr. Lowe said Smith would take his appeal to the British Columbia Court of Appeal, and the case would probably be heard by that tribunal at its Fall sitting in Vancouver in October.

Magistrate Jay stated in the police court yesterday that after carefully reviewing the testimony in the hearing against Smith, he could come to no other conclusion but that the statement given in court by Jack Knight, thirteen years of age, was true, and that the automobile was taken by Smith himself to the place where it was found, and there set on fire by Smith.

The magistrate pointed out that the offence under the code was a serious one, and provided that anyone who is guilty of the destruction of property of over the value of \$200 with intent to defraud is liable to five years' imprisonment. The accused Smith would be sentenced to one year, the court declared.

THE DECISION

In handing down judgment in the Smith case, Magistrate Jay spoke as follows:

"Since the hearing of the evidence in this case, I have given very careful consideration to every angle. There is some conflict between the evidence of the chief witness for the prosecution, the boy, Jack Knight, and the accused himself, as between the first story he told to the police and the subsequent story he told to them, and which he repeated in this court.

"When this boy, Knight, was first brought by the police, he said that the car had been stolen, and that it had been parked outside Stevenson's candy store on Yates Street. Subsequently, he changed that statement and said that the car was parked on Johnson Street, and that he and the accused, after going to the Columbia Theatre, went to the car and drove it out to Burnside Road. At a certain point on Burnside Road he was told by defendant to get out of the car, and he got out, and defendant then drove the car a short distance further, and the boy then heard a noise—a crash. Shortly after this the defendant returned to the boy, who then saw the car in flames.

"There is the significant fact, too, the boy says that shortly before he left the car or got out of the car, the defendant told him that he was going to get rid of the car. That fact is denied by the defendant, but it is a significant statement, and it can hardly be believed that it is a statement that the boy has manufactured. There is no doubt that the boy in giving evidence was under very great mental distress, no doubt due to the fact that he was called upon to give evidence against the accused, who had been his friend.

"I can see no motive for the boy making up a statement of this kind. On the other hand there is a motive for the boy's first statement, because he knew at that time that the defendant had stated that the car had been stolen, and his first impulse would be to assist his friend in that statement.

SIGNIFICANT FACT

"There is that significant fact of the statement the accused made with regard to his intention to get rid of the car; under ordinary circumstances, that might be a very innocent remark, but when you consider that at that time he was very much in arrears with the payments on his car, there being four payments of \$30 each overdue, amounting to \$120; also another note for \$146, coming due in a very few days, it must be seen that the position of the matter so far as the financial aspect was concerned was at that time somewhat hopeless for the accused to attempt to complete the payments on that car. Therefore the remark that he intended to get rid of it, because he couldn't sell the car, it wasn't his; and if he had attempted to sell it to anyone for even a small amount, the person to whom he sold it would stand in the same position as he did, and would have to assume these overdue payments, or the car was liable to be taken possession of by the vendors at any time.

"After very careful consideration, I can come to no other conclusion but that the boy's statement, as given in court is true, and that the car was taken by the defendant himself to the place where it was found, and there set on fire. Under those circumstances, I think there must be a conviction.

"The offence under the code is a serious one, and provides that anyone who is guilty of the destruction of property over the value of \$200 with intent to defraud is liable to five years' imprisonment.

"The temptation was there. The defendant knew that the car was liable to be seized at any time. Possibly he had the hope of getting rid of the car in this way, and he might recover some small amount of insurance from the wreck.

"The accused is sentenced to one year's imprisonment."

SHEEP FOR ALASKA

SEWARD, Alaska, Aug. 21.—One thousand head of Wyoming sheep will be shipped to Kodiak and Sitka, Alaska, immediately. Sedon Taliaferro, Rock Springs, Wyo., banker, announced here yesterday after an air and land tour of the islands.

If the experiment proves successful this winter, Wyoming stockmen will put a hundred thousand head of sheep on Kodiak and adjacent islands, Taliaferro said. Taliaferro left for Seattle on the steamer Aleutian.

Hudson Strait Patrol Leader To Come South

OTTAWA, Aug. 21.—Preparations have been completed for the return to civilization of the aviators attached to the Hudson Strait expedition. The planes will come down the eastern shores of James Bay and will follow the natural waterways from Moose Factory here, officials of the air board stated today.

The flight, it is expected, will take three days and the five planes probably will leave a day apart. Gasoline, oil and repair equipment have been placed at several points along the shores of Hudson Bay and James Bay. The aviators will fly by day only, and every effort has been made to render the flight safe.

SAXE POINT TO BE SCENE

Esquimalt Conservatives to Hold Annual Picnic at Same Location as Last Year

THREE SPEAKERS WILL ATTEND

The Esquimalt Conservative Association will hold its annual picnic at Saxe Point at the end of Fraser Street today. The event is expected to be a most enjoyable one, and it is the hope that several of the members of the new Government that is now being formed will be able to pay a short visit to the picnic and perhaps be heard in very short speeches.

The speakers arranged for the day will include Hon. S. F. Tolmie, the new Premier, Mr. R. H. Pooley, member for Esquimalt, and Mr. C. H. Dickie, M.P. for Nanaimo.

But in addition to this feature, there is a long list of sports for which splendid prizes are being offered. These sports will include the tug-of-war for the Lang Cup. There will be three teams at least to enter. The city police team, the present holders of the trophy, will

MR. W. GRAHAM.

defend it, while a civilian team from Esquimalt and another one from the navy will be challengers.

There are also events for boys and girls of all ages, with trophies for men and women, and all kinds of novelty races. The request is made that competitors should line up promptly on the calling of the races so that there may be no delays.

The judges will be: Reeve Erick, Mr. A. W. Sadler and Mr. S. R. Bowden. The starter and handicapper will be Mr. W. Brooker.

The Victoria Junior Boys' Band of forty pieces will be in attendance during the afternoon and provide the music.

A special invitation is being extended to the Conservatives of Victoria and Saanich, as well as of Esquimalt, to attend this gathering.

Obituary

FAIRBAIRN—The remains of Graeme Alexander Fairbairn were laid to rest yesterday afternoon in Ross Bay Cemetery, the funeral taking place from Hayward's B.C. Funeral Chapel, Rev. Dr. Glen Davies officiating at the chapel and Rev. Canon Hinchliffe at the graveside. The hymns sung were "Safe in the Arms of Jesus" and "There's a Friend for Little Children." A large number of friends attended and numerous beautiful floral designs were received. The following acted as pallbearers: Messrs. B. D. Robinson, F. C. Holden, C. V. Scrivener and A. B. Unwin.

A large recreation centre for the 1,500 stockmen employed at the Royal Show at Nottingham, England, was opened this year.

MR. W. GRAHAM PASSES AWAY

Was First Postmaster of Maywood, and Councillor for Ward Two, Saanich, Several Terms

RESIDED HERE HALF CENTURY

Mr. William Graham, councillor of Saanich, and pioneer of the Cloverdale district, died last evening at his residence, 3338 Tennyson Avenue, after a lengthy illness, at the age of seventy-two years.

Born on December 5, 1856, at Carlisle, Cumberland, England, he was brought as a child by his parents to Ontario, where he was educated. Attracted by the opening up of British Columbia, the family moved to this island in 1874, traveling overland by the Union Pacific Railway to San Francisco and by steamer from the Golden Gate to Esquimalt. They immediately settled in the Keating district, on a farm, where young Graham commenced his association with this locality.

Going to Cloverdale as the second resident, there being only one house in that section of Douglas Street, Mr. Graham became the pioneer of what is now known as Cloverdale, but which formerly bore the name of Maywood, and by that name the first postoffice was organized, with Mr. Graham as its first postmaster. That office he held for many years.

One of the proofs of the high measure of respect in which he was held by all was the fact that he was frequently selected to act as returning officer for his district at municipal elections, and was also registrar of voters for the Saanich Provincial Electoral District, the appointment dating back to 1899 and continuing to his death.

He had been councillor for Ward Two, Saanich, for eight years, several times being returned by acclamation, and had thus the longest continuous service on the council.

He had been identified for many years with the Foresters, being a charter member of Court Victoria, A.O.F.

The members of the family, in addition to the widow, are five sons, Messrs. William H. and Victor Charles Graham, both residents here, Mark Cloverdale Graham, in California, Cecil W. and George E. Graham, living here, and three daughters, Mrs. J. Woodcock and Miss Clara V. Graham, of Victoria, since Friday.

Knitted Suits

For the Wednesday Morning Shopper we offer a group of imported Knitted Suits, made by some of the best manufacturers in England and Scotland. These suits come in both the coat and pull-overs styles. The pull-overs are shown with the ever popular V-necks or with the new square or round neck lines. All the wanted shades are shown in both plain and fancy weaves.

Specially priced at

\$10.00, \$12.50 and \$19.50

and Mrs. W. A. Gardiner, in Seattle. One sister, Mrs. T. Baker, is also living here.

The funeral arrangements are in the hands of the Sands Funeral Company and announcement of the details will be made later.

Adrift in Doris

ST. JOHNS, Nfld., Aug. 21.—The steamer Meigs is searching for six fishermen adrift in their dories from the Newfoundland schooner Orin. The men have been missing since Friday.

Ontario Sending 10,000 Harvesters

TORONTO, Aug. 21.—Nearly 10,000 harvesters left Toronto last night for the grain fields on the prairies, where they are to help the farmers in garnering what is expected to be a bumper crop. Railway officials state that last night's contingent constitutes a record for the first excursion of the season. Other parties are due to leave on August 23 and 31.

The sketch of Their Majesties is a pen and ink reproduction of a moving picture of the King and Queen's visit to the Moffat Exhibit.

Their Majesties ~

King George V and Queen Mary visit Moffat's Exhibit at The British Industries Fair Birmingham England

THEIR Majesties paid Canadian Industry a gracious compliment by departing from a previously arranged route to see the Moffat exhibit of all-Canadian made Electric Ranges at the British Industries Fair.

You can see the same range of designs as those admired by the King and Queen, in the leading Electric or any Hydro Shop in Canada.

Over 95,000 women the world over are enjoying the pleasure and profit of Electric Cooking and Baking on a Moffat.

If you cannot see a Moffat's Electric Range in your district, write us for full particulars and we will send them to you.

ASK YOUR GROCER

The following anecdote of two
Tartars is related by a Russian
singer. The first was accused of
horse stealing. When questioned by
the judge he said he had not stolen
the horse and did not understand
Russian. An interpreter was there-
fore sent for and after a long con-
futation with the accused, said
that he was not guilty of the theft.

"What were you talking about at
such length?" asked the judge, who
was both curious and suspicious.

"Oh!" was the reply of the inter-
preter. "I have just bought the
horse from him."

What is believed to be the skeleton
of a prehistoric lemur, in an unusual
state of preservation, has been un-
earthed near Swansea, Wales.

FINE DOMESTIC SCIENCE DISPLAY

Women and Girls Show Ability in
Many Phases of Household Arts
and Handicrafts at Fair

Rapid progress is being made with
the judging of the exhibits in the
Domestic Science section of the
Provincial Fair at the Willows. The
entry list is a long one, and owing
to the very fine character of most
of the work and the necessity of
close examination it is impossible
to complete in less than three or
four days. It is anticipated that all
classes will be judged by Thursday
evening, at least.

All Bread to Weigh 1 1/2 Pounds

Bread, plain white, 1 loaf—1.

Mrs. Barker; 2. Mrs. Miller.

Bread, plain brown, 1 loaf—1.

Mrs. Barker; 2. Mrs. Barker.

Bread, date, 1 loaf—1.

Miss J. Staveley; 2. Mrs. Kinney.

Bread, nut, 1 loaf—1.

Miss Glen-
denning; 2. Mrs. MacGillivray.

tosh; 2. Olive Gardiner.

"LADY BETTY"

By JOHN L. CARTER

Author of "The Cinema Girl," "Peggie the Aeronaut," etc.

CHAPTER XIX

A week went by. Jimmy Weston had had scarcely one really peaceful moment since Lady Betty's visit. Each day, almost every hour, he had asked himself whether he ought not to call and try to put things right. At times he would sit down at his desk and draft letters after letters, each of which he tore up and dropped in the waste-paper basket. What particularly troubled him was that Lady Betty was so very unhappy, and so very distrustful. He did not blame her. He only felt a great compassion, and it was solely because he wanted to do what was best for her that he had as yet done nothing at all.

There were times when he could stand the inaction no longer, and on more than one occasion he had put on his hat and set out to see her. But he had never yet gone so far as to enter Lord Alister's house, and more often than not he would turn round again almost before he reached the end of the street. He would then return and stand about the studio, gloomy and irritable and quite unable to apply himself to his work.

The present was such an instance. He had been drawing Elsa as a harvester—it was to advertise a patent oatmeal—and suddenly, without any warning he threw down his tools, picked up his hat and

turned to the door. But on this occasion he did not even reach the street. And then he flung himself down into a lounge chair, covered his face with his hands and groaned.

Elsa had taken it all in. Noiselessly she got down from the dais, and came and stood very near him. There was an expression of anxiety on her face that was so different from the look of joy and sunshine of a mere week before. This week had left its mark on her as well as on Jimmy. She knew what was Jimmy's trouble, and the knowledge was like lead in her heart. She had noticed that Jimmy had altered strangely since Lady Betty's visit. He had been more reserved, and had made her keep to a regular timetable. He had no longer permitted her to mend for him, and during lunch he seemed a different person. She did not blame him. She understood well enough; but it was very bitter for her.

"I will go right away!" she burst out suddenly, trembling with the agony of the sacrifice she suggested. She had fallen on her knees; her hands were clasped over the arm of his chair. Jimmy looked down in dull surprise. There were two great tears in her eyes. Even then it struck him that her eyes were not made for tears.

"But why should you go away?" he protested. "I am sorry I let my-

self go on like that. I was upset about something, that's all."

But Elsa would not listen. To cry peace where there was no peace would not satisfy her.

"Why? Because she does not want me to stay," she said. "I have no right here. It is her place."

Jimmy shook his head. He had no wish to argue it out with little Elsa. He took himself in hand and struggled up to his feet.

"Suppose you go on with the work," he suggested.

"I cannot!" cried Elsa brokenly. "It is not work; it is torture for you and me. A week ago I was happy, and you were. We worked all the time. Now? Now we know we cannot be happy. We have no right. I could not bear it, now that she has been here. She thinks you love me most. Does she not?"

Jimmy regarded her dubiously for a moment. Then he nodded his head.

"We know it is not so," she said bravely. "You—like me for the help I am in your work."

"That is so," he said.

"Still, I must go away," she said. Jimmy frowned. He knew that it must be so, though he felt that to send Elsa away would be an absurd solution of the problem. He knew just where he was. Elsa was a work-mate, a true-hearted worker, who seemed to know by instinct just the pose required, and in other ways seemed inspired to make his work go smoothly. But he was never more sure of anything than that he did not love her—unless it were love to admire her beauty and appreciate at their really high worth the numerous little services and kindnesses which she had shown him. She had been a splendid friend, and he told himself that not only would he be unable to replace her, but he would never manage without her. He would miss her at every turn apart from her excellent sitting.

"But why must you go away?" he queried.

"Because of you," she said simply. "I cannot bear to see you anxious and upset, and not happy. If I go away she cannot think that you are not fair to her."

Jimmy shrugged his shoulders. "It is no use doing that," he said reproachfully. "I shall not like to go." She paused and looked anxiously into his eyes. "I shall not know what to do. I shall be all alone."

Jimmy was very dense.

"Oh, you will get another post all right," he said.

She looked closely at him once again. She seemed to wince under his words.

"Yes, I shall get another post," she said bitterly. "That is all."

"I shall be terribly sorry to lose you," he said.

"Because of the 'Golden Girl' picture?" she queried with a wan look.

"And other things too," he said. "You have been ever such a help to me."

"That did not take any of the sadness out of little Elsa's face."

"I shall not go to Italy. I shall go home. I think I will never leave home again," she said. She wanted love and she felt that she would get that at home.

"I'm sorry, now, that I took you away from your post," he said. "I am afraid it was not right."

"I would not have done otherwise," she said thoughtfully. "And you did not know. I have been very, very happy. I never thought I should be as happy as I have been with you. I do not regret, I shall have—what you call memories."

Jimmy gave her a sharp glance. He was beginning to see just what he had done in taking her away from her post. For the first time he was facing actual facts.

"But you will be much happier than that!" he said. "You are still very young. Your life is all in front of you."

She looked at him with a soft, inscrutable smile.

"When I leave England I leave my life and my happiness behind. Each day I shall leave it a little more. But I must be. I have no right. I will not be a thief."

Jimmy sighed desperately. What could he do? Words, mere words, were barren. Elsa wanted more than that. Yet more he could not give her. How could he declare how very greatly he would miss her, and how much he cared for her in a big brother sort of way, but he could not tell her the only thing that would satisfy her, that he loved her more than anything else in the world. He could not take her in his arms and soothe her, and smooth that look of pain away. He could not promise that she should live with him day after day, year after year. And since he could not give her the love which she craved, he took the wise and safe course of giving her nothing—at least nothing but an additional heart-ache.

(To Be Continued)

Ministers in Maritimes

By Nina Wilson Putnam

MONCTON, N.B., Aug. 20.—Hon. James Macdonald, Minister of Trade and Commerce, and Hon. J. C. Elliott, Minister of Public Works, in the Federal Cabinet at Ottawa, were in this city today on their way to Nova Scotia. They are to speak at a public meeting to be held in Hon. J. L. Ralston's constituency of Yarmouth tomorrow evening and will then go to Halifax to attend a dinner given in honor of the Australian admiral at the Halifax Club on Wednesday.

Farrell Says Hagen Will Have to Play Better Golf to Win

Trumbull Tells of Determination of U.S. Open Champion to Defeat Walter Hagen in Forthcoming Matches for World's Title

By WALTER TRUMBULL
(Copyright by North American Newspaper Alliance)

The Western amateur golf tournament was put forward a week for the purpose of permitting the members of the British Walker Cup team to compete. It therefore is nice that some of them qualified. W. L. Hope and Eustace Storey have played twice in Walker Cup matches and T. A. Torrance played in one series, but the British amateur who made the best impression on our golf experts is T. P. Perkins. Mr. Perkins has been doing some handsome shooting. Dr. William Tweddell also has demonstrated an ability to waltz the pill.

JOHNNY FARRELL

It seems a pity that Dr. O. P. Tweddell, of Portland, Ore., was not chosen as one of the Walker Cup representatives for the United States. Had he been paired with Dr. Tweddell, these two professional gentlemen might between them have worked out some remedy for the many ills to which golfers are subject—a cure, for example, for a slice or a contracted left arm.

Johnny Farrell and I were discussing the British team yesterday. He said that he had played with only one man—Mr. Torrance, as I remember—and that he was a good golfer. He must be a good golfer, because Johnny played with him at

the Lido, and any man who looks like even a fair golfer on that course knows the game.

FARRELL IN TRAINING

Farrell is taking his coming matches with Walter Hagen very seriously. The open champion has gone into training at Artie McGovern's gymnasium. It was McGovern, trainer of Babe Ruth, who put Johnny in such condition last winter that he won the \$15,000 La Gorce open at Miami Beach, and more recently beat Bobby Jones in a play-off for the national open title.

Farrell says that he is pretty well tired out from his full schedule of exhibition matches and wants to get in shape again before playing Hagen in their first match at Detroit. When I left him McGovern was putting him through some of the abdominal exercises which he considers of great benefit to golfers.

Farrell has played fifty exhibition matches in the last sixty days. In the next week he intends to play only three matches, which he considers practically nothing. He says that it is not so much the golf as the necessary traveling which tires him out. He has been doing most of his sleeping on trains.

When he was in Superior, Wisconsin, Johnny was introduced to President Coolidge. The President admitted that he had heard the game of golf well spoken of, but said that all the golfing for the Coolidge family was done by his son, John.

Farrell told me that he did not believe that an open champion tournament after he won the title. He said that the travel and playing made necessary by the usual exhibition tour resulted in a professional champion becoming over-tired and that it left him in no shape to make a creditable showing in a tournament where he was likely to meet the best players in the country, many of whom were sure to be at the top of their game. As a result he frequently is not only beaten by the good men, but sometimes by distinctly second raters.

This appears to me to be sound reasoning. Farrell figures that he has at least an even chance against Hagen at match play, although this form of golf is Hagen's long suit. As a

Will Pass Through City On Way Home Today

WIN FROM DUBAN BY EIGHT RUNS—OVERWHELMING DEFEAT OF THE ELEVEN BY 123 TO 16

NAVY DEFEATED AT CUMBERLAND

UP-ISLANDERS SCORE TWO DECISIVE CRICKET VICTORIES

CUMBERLAND, Aug. 21.—On Saturday and Sunday in Cumberland there was a regular cricket carnival, owing to H.M.S. Durban and H.M.S. Despatch being in the harbor at Comox. Two games were played against the ships, the Cumberland eleven playing the Durban on Saturday afternoon, and the Despatch on Sunday afternoon. The Saturday game was played in ideal weather before a fair crowd. Cumberland batted first, but only managed to gather a score of 75. Three men reached double figures, Gough, Burns and Stewart. Burns was the star of the local team, making 30 with the bat and taking two of the Durban wickets for 24 runs.

It looked like an easy win for the Durban, but the Cumberland bowlers were in deadly form, taking seven wickets for 25 runs. Cumberland eventually won the game by eight runs. This is the first time the Durban have been beaten on the island during their tour, and the first time for many months that the team has suffered defeat. The score follows:

CUMBERLAND'S INNINGS
Idiens, lbw b Coleridge..... 1
Hassell, run out..... 3
Gough, played on, b Agnew..... 11
Dando, c Agnew, b Beggs..... 30
Burns, c Pascoe, b Beggs..... 30
Stewart, b Beggs..... 10

Midshipman Beggs, b Burns..... 0
Extras..... 6

Total..... 67
Bowling: Goodall, 7 for 25; Gough, 0 for 24.

ANOTHER VICTORY
Owing to their win over the Durban on Saturday, the Cumberland cricketers turned out on Sunday against the Despatch with complete confidence. The result was beyond the expectation of the home team's most ardent supporters. Cumberland batted first, and with Idiens, Nunna, Burns and Goodall reaching double figures, 129 runs were scored. As on Saturday, Burns was the mainstay of the team, as in addition to scoring 40 runs, he proved to be deadly with the ball, taking six of the Despatch wickets for 11 runs. The veteran Joe Idiens, a good display and reached 26 by very steady batting.

After the tea hour the sailors turned out to bat in a shower of rain, which while not being very heavy, made the ball more difficult. The Cumberland bowlers, Burns and Goodall, did deadly work, the whole of the visitors being dismissed for 16 runs. Goodall took four wickets for five runs and Burns six for eleven. The Cumberland skipper, J. L. Brown, put the visitors in a good position by sending fresh bowlers on. On time being called the score stood at 76 for five wickets, a vast improvement over the first innings. The following is the score:

CUMBERLAND'S INNINGS
Idiens, b Regier..... 26
Vaughan, b Thompson..... 2
Hassell, c Bowey, b Walsh..... 40
Burns, run out..... 30
Gough, c Walker, b Walsh..... 19

Extras..... 5

Total..... 76
Bowling: Vernon-Jones, 3 for 27; Ledingham, 2 for 12; Gough, 1 for 15; Vaughan, 0 for 12; Stewart, 0 for 6.

ARNE BORG CLIPS FOUR SECONDS OFF 400-METRE RECORD

BUDAPEST, Aug. 21.—George Kojac, of New York, won the 100-metre backstroke race in the aquatic arena here today, but Clarence Crabbe, of Honolulu, was forced to bow to Arne Borg, the Swedish star, in the 400-metre free style event. Borg clipped four seconds off the Olympic record in winning this feature.

FIRE IN WINNIPEG
WINNIPEG, Aug. 21.—The Walker Block, an old landmark in the Woodward section of the city, was destroyed by fire last night. Twenty-one families who lived in the building had ample time to vacate their suites before the fire gained headway.

HISTORIANS CABLE CONGRATULATIONS

Cook Festival in Hawaiian Islands Commenced—Fine Material on Navigator Available Here

To Col. Curtis Iankes, chairman of the celebration committee of the 150th anniversary of the landing of Captain Cook on the Hawaiian Islands, the B.C. Historical Association has forwarded a congratulatory cable, stating that best wishes are extended for the celebration, in special acknowledgment of Captain Cook's services to exploration on the Pacific Ocean.

The Provincial Library here has segregated as a unit the finest collection in existence of printed books on the explorations of Captain Cook, which will be of special interest at the present time. Of the famous Zimmerman story of the Cruise, which preceded the official Admiralty report, it possesses three copies, two published in French and one in German, the last named being the copy presented by Mr. Cecil French after a search of the Swiss libraries. It is this book which was selected by Judge Howay, who is attending the ceremonies in the Hawaiian Islands, as representative of the British Columbia Government, as the presentation volume for the authorities of the Territory of Hawaii.

HORSE ENTRY AT FAIR MAKES SHOW NOTABLE

Continued from Page 1

By six o'clock yesterday, if at this time not another ticket had been sold, the gate would have shown a 25 per cent increase over the total when the fair closed at the end of the day on the Tuesday of last year. But hundreds more were admitted and the midway, which is 30 per cent bigger this year, and all parts of the Exhibition, were crowded till a late hour. Much planning has to be done ahead for a show like this, and Mr. W. H. Mearns, who yesterday spent the busiest day of his career as show secretary, was already planning an extended midway for next year, for which enlargements and extensions to existing buildings are already planned.

CATTLE JUDGING BEGINS

On the Exhibition side the feature of yesterday was the commencement of the judging in the cattle classes, and all day a gathering of breeders, exhibitors and others interested were round the show ring as the animals were led to and from the barns. Holsteins, Jerseys, Red Poll and Aberdeen Angus class were completed in the dairy class a very fair share of the honors came locally to district and Island exhibitors. Among the Jerseys Mr. J. S. H. Mason's herds produced many winners, the bulls particularly being well placed in the judges' award books. David Spencer's herds contributed strongly among the winners and very successful was the strong entry sent by a welcome exhibitor to the show, Mrs. Edna Knight, of California. Mr. E. A. Dumville was also well represented among the winners.

In the evening the horse show was the big attraction, and the feature of the show was the teams of heavy horses which were driven into the ring in competition, scoring points which will be added to nightly until the final award on Saturday night.

These fine teams are certainly "big fair" attractions and are brought here at heavy expense. They are the best of the world has in this line, coming from owners who are internationally known. In their most of the teams to be seen in Victoria having taken international honors. There was a burst of enthusiastic applause as these fine teams drove into the show ring of the horse show building, with the brilliant harness, white painted wagons and while clad drivers. Hains and harness are picked out in small electric globes, and the beautiful animals, graceful despite their weight, afforded a spectacle such as could not have been seen even in the days before the horse was crowded out by the automobile.

It was in last November at the Victoria horse show in Port Moody that the secretary was able to arrange for these teams to come here and there is no doubt as to their success as a main attraction of the Exhibition.

FINE HORSE SHOW

The horse show indeed has attracted much outside attention and support, and it is remarkable that the horse show has been so much to the background, so many fine animals can be found to fill all classes. It would seem that the less the horse is needed in a utilitarian sphere the more beautiful and highly bred he becomes in the service of pleasure and sport. The light horses seen in the classes for hunters, hack and thoroughbreds come from a wide range of territory from Mexico and the Southern States and from the Eastern Provinces and states as well as England.

Judging in some of these classes was completed at a late hour, with results published in another column. Today is expected to be a big day at the fair. Judging will continue all day and at 3 o'clock will be the big stock parade in the centre of the field. This will be led by the heavy horse teams, including one of eight horses, and will include the heavy stallions and mares entered in the Exhibition, as well as the light horses. The horses will be followed by a representative parade of the cattle in the show.

The horse show each night in the horse show building should not be missed. It is a credit to the Exhibition and one of the best put on anywhere. The classes for riding horses and thoroughbreds contain some fine animals and the show is a complete answer to those who hold that the horse is obsolete and doomed to extinction. The horse will certainly never disappear while shows like these encourage horse lovers in their efforts still to further improve what many consider the most beautiful of animals.

Section 62, mare or gelding to weigh over 1,600 lbs.—1, R. Duncan; 2, Demasius Milk Company; 3, City of Victoria.

Section 107, park hack mare or gelding, 142 hands and over—1, Miss B. Harris; 2, Mrs. Russell; 3, Capt. Williamson's Riding School.

Section 92, stallion, three years and over—1, Mr. H. Fullerton; 2, W. T. Miller; 3, Mrs. McKennie.

Section 93, stallion, two years and under—1, Mrs. Winters; 2, D. C. Enett.

Section 101, champion stallion—1, Mrs. McKennie; 2, Mrs. McKennie.

Section 104, stallion most suitable for producing hunters—1, H. Fullerton.

Section 106, stallion and two of his get—1, W. Trainer; 2, H. Fullerton.

Section 59, six-horse team, each horse 1,400 lbs. or over—1, Miss O. Harris; 2, Miss O. Harris; 3, Mrs. McKennie.

Section 95, brood mare in foal or foal by side—1, Mrs. McKennie; 2, Mrs. McKennie; 3, Nelson.

Section 105, produce of one mare, two animals, any age or sex, registered—1, R. C. McKennie; 2, D. S. Burge; 3, Demasius Milk Company.

Section 61, weight pair, each horse to weigh over 1,600 lbs.—1, H. Fullerton; 2, Marshall; 3, Nelson.

Section 94, gelding mare—1, H. Fullerton; 2, H. Rowe; 3, D. C. Enett.

Section 97, three year old filly—1, H. Fullerton; 2, H. Rowe; 3, D. C. Enett.

Section 98, two year old filly—1, Nelson; 2, Mrs. McKennie.

WOMEN FROM ALL CANADA ARE PRESENT

Federation of University Women's Club Opens Sessions in Vancouver—President's Address

DEANS ADVOCATED FOR HIGH SCHOOLS

VANCOUVER, Aug. 21.—Practical and everyday problems in the education of women were discussed at some length this morning by Dean M. L. Boller, president of the Federation of University Women's Clubs, during her address to the Hotel Vancouver before an audience composed of delegates from all parts of Canada. In her theme the Dean mentioned the "college" boom that has been going on in the United States, and the student of excellent ability and small financial resources who may find that "work" is a word which is not in his vocabulary. She mentioned the great demand on her health, or study or recreation time. In these cases, said the speaker, a University Women's Club is of great value in helping the girl over the difficulty.

IN CANADIAN UNIVERSITIES
Positions for college women and the problem of employment was also stressed by the speaker, who mentioned that there was usually plenty of work but not always suitable work, and that perhaps it was true that too many women were going through college. In this connection the speaker gave an interesting table of figures, declaring that there were twenty-two universities in Canada, six of which were controlled by the state, four were denominational and fourteen were non-denominational.

Total university registration for 1927 was 15,977 women, she continued, while university and college registration for women was 18,375. She mentioned that 8,417 degrees, diplomas and certificates were issued during the year.

HIGH SCHOOL GIRLS
The appointment of deans of girls in high schools has stressed by Dean Boller, who felt that this was a worthy step owing to the declining influence of home, the growing school spirit, and the increasing number of girls over boys at school, though more men teachers were employed than women, and also the fact that the problems of the girls' problems often meant the same for the boys.

"Revolution of health education is imperative," declared the speaker, "when we consider the rise of tuberculosis in this line. The maintenance of national vigor and the protection of racial betterment are a challenge to college men and women."

COMPETITIVE ANARCHY

VANCOUVER, Aug. 21.—Attributing three harmful practices to the competitive spirit, the result of unbridled competition, E. H. MacKenzie, president of the F.V.M.P.A., agreed with W. L. Mack, when he suggested that "competition seems to be responsible for several of our worst things" in the dairy industry, when Mr. Rive testified at the inquiry Tuesday afternoon. Witness declared that as a result of competition the Fraser Valley Dairy had been forced to bottle raw milk at the plant for public distribution. "We do not like to do this," he said, "for this practice is not safe. But we have to do it to meet competition of other dairies who are doing likewise."

After having been on strike for three weeks, 12,000 dock workers in Antwerp, Belgium, deserted their Communist leaders and returned to work.

Summer Complaint Causes Many Deaths Among Infants

BAODAD, Aug. 21.—The Government of Iraq has taken a strong stand against Great Britain's claim that it should contribute to the cost of maintaining British troops in Iraq.

The British claim was agreed to by the last Iraq Government, but has not been ratified by the present Government, which assumed office early this year.

The agreement provided that Iraq should pay the difference between the cost of maintaining British troops in that country and what the cost would have been had they remained in England.

"My Government will never agree to pay this," declared Premier Abdul Mubsin in the Chamber of Deputies yesterday. He thought that since Great Britain has many political and economic interests in this part of the world, it should bear the total expense.

The sum involved up until now

TONIGHT'S PROGRAMME

Brood mare with foal by side (Percheron).

Yield mare, 4 years and over (Percheron).

Filly, 3 years and under 4 (Percheron).

Filly, 2 years and under 3 (Percheron).

Filly, 1 year and under 2 (Percheron).

Stallion, 3 years and over.

Brood mare, with foal, of same breed, by her side: of yield mare having had foal.

Stallion, colt, filly or gelding, 2 years old and under 3.

Children's ponies, mares or geldings not exceeding 13.2, 3 years old and over, to be ridden by boy or girl under 16 years of age.

Pony, stallion, mare or gelding, 3 years old and over, over 13 and under 14.2.

Shetland pony, stallion, mare or gelding not exceeding 46 ins. in height, 3 years old and over; to be ridden by boy not over 12 years of age.

Mare or gelding 3 years and over, under 1,400 lbs., as used for city delivery. To be shown in single harness to a vehicle.

Mare or gelding, 4 years and over, exceeding 1,400 lbs., as used for city delivery. To be shown hitched to four-wheeled vehicle.

Six-horse team.

HOSPITAL BODY ELECTS OFFICERS

Delegates Will Come to Nanaimo for Convention Next Year

Local hospital officials who returned during the week-end from the annual convention of the B. C. Hospitals Association at Vancouver this week met for the purpose of electing officers for the coming year. The meeting terminated on Saturday.

A special committee is to consider the question of the increasing cost of hospital service. Probably a questionnaire has been submitted to all hospitals in the Province requesting information on this point of practice in administration with a view to uniformity.

It was decided to hold the next annual meeting of the Association in Nanaimo, an invitation being extended by Mayor F. A. Busby to the meeting.

An increase in the per capita allowance for indigent cases was discussed in view of the increasing cost of hospital service. Probably action will be taken later, when further data can be secured.

Complete lists of the officers elected is: Honorary president, the Provincial Secretary; president, J. H. McVety; first vice-president, R. A. Bethune, Kamloops; second vice-president, J. M. Coady, Vancouver; secretary, E. S. Withers, New Westminster; treasurer, Miss G. M. Currie, R.N., North Vancouver.

Nine members of the executive committee elected to represent districts in the Province are: Vancouver Island district, A. P. Glen, Ladysmith; Vancouver, Dr. F. C. Bell; Lower Mainland, G. W. Marshall, North Vancouver; Fraser Valley, R. L. McCullough, Abbotsford; Yale-Cariboo, M. L. Grim, Okanogan; Kootenai, J. A. Wilson, Kelowna; Kootenay West, J. A. Wilson, Revelstoke; Kootenay East, Mother M. Nazareth, Cranbrook; Northern B.C., Dr. H. C. Wright, Hazelton.

Five additional members of the executive committee who sit because of their election as chairmen of standing committees are: Chairman of medical affairs, Dr. E. J. Vancouver; business, George McGregor, Victoria; nursing, Miss Mabel Gray, R.N., University of British Columbia; constitution and by-laws, C. E. Wilson, Victoria; municipal, R. E. Burns, Vancouver.

ASSIZES HERE ON NOVEMBER NINTH

Fail Assize Dates for British Columbia Are Announced—Open in Vancouver on Oct. 2

The annual Victoria Fall criminal assizes will open here on Friday, November 9, according to an announcement made yesterday from the Provincial Buildings, when the assize dates for the Province of British Columbia were issued.

The dates of the assizes at various portions of the province are as follows: Vancouver, October 2—Criminal, Prince George, October 9—Criminal and civil, Pelly, October 16—Criminal and civil, Nelson, October 16—Criminal and civil, Cranbrook, October 23—Civil, Fernie, October 30—Criminal and civil, Revelstoke, November 20—Criminal and civil, Victoria, November 9—Criminal, Nanaimo, November 16—Criminal and civil, New Westminster, November 20—Criminal.

IRAK DISPUTES BRITISH CLAIM

BAODAD, Aug. 21.—The Government of Iraq has taken a strong stand against Great Britain's claim that it should contribute to the cost of maintaining British troops in Iraq.

The British claim was agreed to by the last Iraq Government, but has not been ratified by the present Government, which assumed office early this year.

The agreement provided that Iraq should pay the difference between the cost of maintaining British troops in that country and what the cost would have been had they remained in England.

"My Government will never agree to pay this," declared Premier Abdul Mubsin in the Chamber of Deputies yesterday. He thought that since Great Britain has many political and economic interests in this part of the world, it should bear the total expense.

TRUCK TO TAKE PRODUCE NORTH

WILL AID IN KEEPING BUSINESS FOR COMOX VALLEY

Purchase of Gasoline Subject of Lively Discussion at Courtenay City Council Meeting

COURTENAY, Aug. 21.—At the regular meeting of the City Council here on Monday evening the question of the purchase of gasoline for the city's trucks was under discussion. Representatives of gasoline companies waiting on the council to enquire as to the decision to confine purchases of gasoline for the trucks to one particular brand.

The mayor explained that the reason the decision had been made was because the gasoline in question was said to be produced in Canada. It was decided that the gasoline dealers should present their case in writing to be put before the council at the next meeting.

Letters from the Good Roads League of British Columbia and the Union of Municipalities of British Columbia requesting the names of delegates for the annual convention at Trail were productive of a good deal of discussion. It was decided to send the annual dues but not to send delegates from the city this year, but an important resolution will be forwarded to the convention concerning the road north to Campbell River.

Alderman Pearce introduced this subject and explained that it was proposed to run a daily truck with Comox Valley products to the market further north. At present the road contained a good many twists, and he thought the city council should do all in its power to aid the marketing of this produce. The

QUALICUM SOIL IS VERY FERTILE

Encouragement Given to Vegetable Growers—Fruit Looking Well—Tomatoes Growing Wild

QUALICUM BEACH, Aug. 21.—The fertility of the soil in many parts of Qualicum Beach is remarkable and more noticeable every year. For years the local Farmers' Institute, ably supported by the Board of Agriculture, has endeavored in every way to encourage those settlers who wished to follow that vocation and make a living. Despite the lack of adequate irrigation. There is a good market at home during the months of May, June, July and August, and a few settlers who have enough land cleared have done fairly well, as there is no comparison between vegetables taken from the garden the same day as delivered and those imported and trucked from Nanaimo by the Chinese and handled at scores of stopping places en route.

A first crop of peaches was gathered early in August, and the later varieties will be ready in a few days. The size, flavor and color is equal to any of the imported fruit. Apples, pears and plums also, despite the very hot summer and lack of irrigation, look good, showing that with improved conditions Qualicum Beach could be made a most desirable place for those interested in agriculture and who would give proper attention and time to this branch of industry.

One of the institute members, Mr. R. T. Lewis, brought fine samples of turnips, beet and onions to the townsite, grown on new land and already fit for show.

Mr. H. Ponsford, who is building at the west end of the beach, has a remarkable instance of fertility on his seafront. Early in the spring a picnic party was enjoying tomato sandwiches. The dog ran off with a

QUALICUM BEACH WELCOMES WARSHIP

Officers of H.M.C.S. Vancouver Entertained by Residents of Qualicum Beach

QUALICUM BEACH, Aug. 21.—The visitors and residents here were delighted to see H.M.C.S. Vancouver come in. On Sunday the Vice-Admiral, Sir Cyril Puller, K.C.B., landed, and accompanied by Lieut. Commanders Sanders and Wood, were the guests of Brigadier-General Noel Money over the weekend. A party of officers was also entertained to dinner by Mr. Gordon Money, at the Qualicum Beach Hotel.

On Monday the Admiral and General Money had good sport fishing, getting fish up to four and five pounds weight. In the evening the Admiral motored to Horne Lake, where he was met by the launch of Messrs. Clarke & Thompson, and taken to the main logging camp, where he will be entertained and stay the night. The logging operations will be inspected, and this being one of the largest outfits on the island, a good idea of the industry will be given.

While at Qualicum Beach the visitors and residents were allowed to visit the destroyer, and were received with welcome and escorted all over the vessel by the officers in charge.

B.C. CEMENT CO. PICNIC AT DEEP COVE A SUCCESS

BAMBERTON, Aug. 21.—The annual picnic of the B.C. Cement Company, attended by nearly three hundred and fifty people, was held on Saturday at Deep Cove, and in previous years, proved a huge success.

During the afternoon a fine sports programme was held, the results being as follows:

Men, 100 yards, open—1, W. Lambert; 2, S. Sweeney; 3, R. Stewart.

Relay race, safety units—J. Beddall, J. H. McIntosh, H. Sweeney and D. Glog.

Quota Competition—1, R. Evans; 2, J. Parsell; 3, R. Thompson.

100 yards, handicap, for boys 11 to 16 years—1, J. Barlow; 2, J. Rutledge; 3, H. Godfrey.

100 yards, handicap, for girls 11 to 16 years—1, P. Kennedy; 2, E. Barlow; 3, S. Crawford.

75 yards, mixed, for boys 6 to 10 years—1, K. Hunter; 2, L. Fulton; 3, W. Zelninsky.

75 yards, handicap, for girls 6 to 10 years—1, K. Hunter; 2, L. Fulton; 3, W. Zelninsky.

50 yards, handicap, for boys under 6—1, H. Thompson; 2, R. Zelninsky; 3, H. Godfrey.

50 yards, handicap, for girls under 6—1, M. Thompson; 2, B. Savage; 3, E. Cairns.

100 yards, handicap, single ladies—1, Miss B. Castley; 2, Miss A. Stewart; 3, Miss Travis.

75 yards, handicap, married ladies—1, Mrs. G. Skinner; 2, Mrs. B. Savage; 3, Mrs. E. Baker.

50 yards, three and needle race, mixed—1, Miss E. Stewart and Mr. D. Hamilton; 2, Miss Kennedy and Mr. W. Lawson.

50 yards, wheelbarrow race, mixed—1, Mrs. R. Baker and Mr. D. Stewart; 2, Mrs. Skinner and Mr. E. Bull.

50 yards, handicap, sack race, boys under 16—1, J. Barlow; 2, N. Tomlin; 3, J. Rutledge.

75 yards, sack race, men—1, D. Hamilton; 2, R. Stewart; 3, J. Rogers.

75 yards, handicap, egg and spoon race, girls under 16—1, M. Godfrey; 2, H. Kennedy; 3, J. Tomlin.

75 yards, egg and spoon race, ladies over 16—1, Miss J. Travis; 2, Mrs. W. Savage; 3, Miss Castley.

75 yards, flat race, men over 40—1, D. Taylor; 2, W. Stark; 3, F. H. Rea.

75 yards, three-legged race, boys under 16—1, J. Barlow and J. Rutledge; 2, H. Evans and R. Hunter.

Hop, skip and jump, men—1, H. Sweeney; 2, S. Sweeney; 3, R. Stewart.

Ladies' nail-driving contest—1, Mr. G. Skinner; 2, Mrs. V. Zelninsky; 3, Mrs. W. Savage.

Ladies' buxus contest—1, Mrs. N. Tucker; 2, Mrs. V. Zelninsky; 3, Mrs. A. Pefferd.

Putting the shot, men—1, H. Sweeney; 2, S. Sweeney; 3, R. Evans.

Baseball game, single versus married men—Won by single men.

No Personal Blame

DUNCAN, Aug. 21.—A coroner's jury, empaneled here last night to inquire into the death of Ernest Wickstrom, nineteen years of age, whose parents reside in Vancouver, and who at the time of his death was employed as a chokerman at the V.L. & M. Company's No. 10 Camp, Lake Cowichan, returned a verdict as follows: "This jury is of the opinion that the deceased came to his death through the failure of the carriage on a high lead to hold on the application of the steam friction, and we are further of the opinion that this appliance should be thoroughly tested by an expert before it is used again. We are of the opinion that no personal blame attaches to any of the employees of the company."

SIDNEY BEACH PARTY

SIDNEY, Aug. 21.—A very enjoyable beach party was held at Town's Beach on Monday evening by the members and friends of the Young People's Society of the Sidney United Church. Shortly after 6 o'clock the merry party, numbering about fifteen, gathered round the bonfire, where music and games were enjoyed. The supper committee served refreshments and a half-hour was spent in popping corn. A hearty community sing was then indulged in by everyone, which brought the happy evening to a close.

PIONEER SCHOOL TEACHER PASSES

Mrs. Lyche, Born in Victoria, Was Resident of Ucluelet for Over Thirty Years

UCLUELET, Aug. 21.—Very deep regret was felt in Ucluelet and on the entire West Coast on hearing of the sudden passing of Mrs. Alice Greenwood Lyche on Tuesday at her home in Ucluelet. Mrs. Lyche was the daughter of the late Mr. and Mrs. Thomas Lee, of Lee Avenue, Victoria, and was born there in 1871. She came to Ucluelet in 1895 and has resided here since that time. She leaves one daughter, Mrs. Stanley Littleton, and one grandchild, of Alberni, and one brother, Mr. E. Lee, of Ucluelet.

The late Mrs. Lyche, being a native daughter, was very well known on Vancouver Island and also on the Mainland and leaves many friends. She had the courage and integrity which were outstanding characteristics of the early settlers on the Coast and had a very interesting career. She taught in the Ucluelet school for over twenty years and it was with deep regret that the Ucluelet School Board accepted her resignation this week. She had charge of the school since it had been built and was always in the fore for better education and advancement. Every Christmas she gave a tree for the school children of Ucluelet, personally remembering every child in the settlement. She also inaugurated the traveling library and always looked after it herself.

The pioneer school teacher who has done much for community uplift and better education, with her brave and cheerful nature, will be missed greatly by young and old alike in the place where she has spent her life laboring for others.

POSTAL EXHIBIT IS INTERESTING

Air Mail Service Is This Year's Feature—New Agreement Between U.S. and Canada

The advantages of sending letters, particularly business letters, by air mail, are stressed in the Postoffice Exhibit at the Provincial Exhibition at the Willows. The display this year is far more elaborate than that of last year, comprising six brilliantly-lighted arcways, above which is a winged letter advertising the new Victoria-Vancouver air mail service. Behind the design is a painting of the Victoria postoffice building.

The exhibit is on the second floor of the Postoffice Building, near the arts and crafts section. It was announced yesterday by the man in charge of the postoffice exhibit that the United States and Canada had made a new agreement with respect to delivery of mail by air. In the future the United States Government will recognize the Canadian air mail stamps, which means that instead of having to buy a Canadian air mail stamp and also an American one, all that will be necessary is to buy a Canadian one. This means that a letter can be delivered by air mail for five cents if it is sent by the first ounce.

Interesting photographs of valuable stamps, covers, first flight made by air mail planes and other rarities of the Postoffice Department are on display.

GOVERNMENTS HAVE EXHIBITS

Departments of Agriculture and Canadian National Railways Contribute to Exhibition

Department of Agriculture and the Canadian National Railways have contributed two attractive exhibits to the Provincial Fair at the Willows Exhibition grounds.

That of the Dominion Government is shown in conjunction with the Canadian National Railways exhibit. It comprises a series of ten stereoscopic animated scenes, telling the industrial, agricultural and social history of Canada.

Each passing scene depicts some branch of the industrial and agricultural activities of this country, while moving slides tell the story of how the nine provinces were bonded together. The C.N.R. slides show the 1928 tour of Canadian farmers to Great Britain and Denmark. These scenes are shown to emphasize the lesson that Canadian farmers learned while overseas with regard to co-operative marketing. The Provincial Government exhibit consists of sheaths of seed, certified seeds, models of barns, stables, bull pens and other outdoor exhibits. An interesting feature of the exhibit were the cases of ants under glass. The antics of these tiny insects are amusing to watch. A knowledge of the operation of these ants, so that they can deal with them intelligently when they are injurious to their crops.

PEKING GIRLS TO BOB HAIR OR PAY

PEKING, Aug. 21.—The Municipal Bureau of Public Safety has decreed that Peking women over thirty years of age must bob their hair or pay a tax. The order is effective September 1. It is meant to discourage the old Manchu style of hair dressing and contradicts the ruling of General Chu Yu Pei, military governor of Chihli under the former regime, who prohibited hair bobbing, threatening to punish his own consorts for disobeying this order.

Mayor Hochi Kung is determined to eliminate feudalistic habits still adhered to by some of the Peking people. He has ordered the men who insist upon wearing queues must pay a heavy monthly tax, and women must remove the bindings from their feet within the next few weeks or pay a periodical fine.

"And how do you get on with your wife?" "I've a splendid working arrangement with her. In the forenoon she does what she wants and in the afternoon I do what she wants."

At the Playhouses

AMUSEMENTS

Capitol—Estelle Taylor and Roland Drew in "Lady Raffles."

Coliseum—"Dawn," starring Sybil Thorndike.

Columbia—"Chicken a la King," starring Mary Philbin.

Playhouse—"The Whip Woman," featuring Estelle Taylor.

Variety—Laura La Plante in "Beware of Widows."

COLISEUM To inject comedy into such a fun as "Dawn" would seem to be sacrilege. Yet something akin to comedy is naturally required to relieve the tragic episodes with which the picture deals. Author and director have succeeded, therefore, in interpolating many bright spots in a manner wholly fitting to the subject matter. To Mary Brough in the role of "Madame Pitou" fell the largest task in this respect, and she has succeeded most admirably. It was to her husband that Nurse Cavell appealed to assist the escape of the first refugee she befriended. The Pitou owned a barge which made frequent trips to Holland. And so with the aid of the Pitous, Nurse Cavell sent many refugees across to Holland. "Dawn" is showing this week at the Coliseum Theatre, under auspices of Canadian Educational Films Limited, which shows daily, starting at 2:30 and 8:30. There is an impressive and spectacular prologue and an augmented orchestra.

THEATRE picture "Beware of Widows" is playing at the Variety Theatre, is an actress whose public following is growing with startling rapidity. She has had Hollywood at her feet for several years. Mrs. La Plante's sweetness, her soft voice, her beautiful dimpled smile and her willingness to always help those in trouble won for her a large tribute. Her latest starring vehicle, "Beware of Widows," was directed by Wesley Ruggles with a cast including Bryant Washburn, Pauline Duval, Walter Hiers, Tully Marshall, Catherine Carver, Helme Conklin and Otto Hoffman.

COLUMBIA Tonight will witness the latest screening of "Chicken a la King," a splendid comedy romance which has been playing to capacity audiences at the Columbia Theatre. Rousing laughter, suspense, thrills and romance feature this latest Fox Film release. Nancy Carroll, George Meeker, Frances Lee, Ford Sterling and Arthur Stone are some of the principal screen favorites who help make "Chicken a la King" an outstanding hit.

PLAYHOUSE Antonio Moreno, who did not have to change his name to become a Spanish type, plays the role of a European for one of the few times in his screen career in "The Whip Woman," a First National Picture presented by Robert Kane, now showing at the Playhouse Theatre. Moreno has played American roles almost exclusively despite his Latin origin. Estelle Taylor is featured in Moreno in the picture, with Lovell Sherman, Hedda Hopper, Julianne Johnston, Loretta Young and others in prominent supporting roles.

DOMINION Most of the "extras" employed in the picture in the charge shown in D. W. Griffith's "Drums of Love," at the Dominion Theatre, were ex-service men. Griffith simply told the veterans that he wanted a certain hill taken. He asked the men to act naturally and without further instructions ordered the scene taken. Several hundred aerial bombs, artillery pieces and grenades were exploded during the "battle" and without a single exception the man carried on as if the cameras were trained on him as the star instead of on the whole flashing valley of racing and rearing men. The result of this policy of letting the men do exactly as they thought best, Griffith said, was one of the most surprising scenes of his career. "I caught at least a score of men who acted out logical and worthwhile little bits of acting without any prompting from me," he said. "Drums of Love" is based on the historical incident of Francesco da Rimini.

CAPITOL Estelle Taylor, wife of THEATRE Jack Dempsey and featured player in Columbia's "Lady Raffles," which will be the attraction at the Capitol Theatre today, has made a careful study on the psychology of women's hose. Miss Taylor is an authority on pantomime expression and declares that personal appearance has much to do with expressiveness. "The most beautiful pair of legs in the world lose all their appeal unless properly garbed," said Miss Taylor, whose shapely limbs are shown off to advantage in "Lady Raffles." "Light colored hose are devoid entirely of sex appeal and the moment they lose their freshness they are 'nil' in the matter of feminine allure. I have binned light hose altogether from my wardrobe. From experience I find that dark nude and a cob-webby shade of dusk are the most effective hues for both professional and non-professional wear. On the stage are Ray McRay, late of The Four Playmates, in song selections. The Swiss Duo, a piano, banjo and yodeling pair, and Ruth and Malloy, in a comedy singing and dance presentation. The Capitol Orchestra and Harold Bechtel complete this fine bill of vaudeville, which appears twice daily.

CLUBMEN INSPECT

Kiwanians Hold Luncheon at B.C. Worsted Mills on Montreal St. Directors Meet Tomorrow

Victoria Kiwanians yesterday held their weekly luncheon meeting at the plant of the B.C. Worsted Mills, Limited, on Montreal Street. President C. Elwood Watkins directed the proceedings, and following the noonday repast, the clubmen were taken over the mill, which will be operated within a short time. The Kiwanians witnessed the various departments of the plant, and expressed satisfaction at the fine progress which was being made in getting the mill ready for operation.

The party of ten local Kiwanians, who flew to Aberdeen, Wash., by B.C. Airways, Limited, monopolized Monday morning to attend the district Kiwanians convention there, are expected to arrive back here by plane today at about 1:30 p.m. at the Lansdowne airdrome.

The chairmen of the Kiwanis Club, committees on attendance, interclub, membership, sports and entertainment, reception and house, will meet the directors of the club at a supper meeting tomorrow night at 6 o'clock in the Empress Hotel.

Captain Jervis to Appear on Stage at Playhouse Monday

Captain Jervis, during the revolution in China in November, 1926, was badly shot through his right hand, paralyzing thus the little finger—and yet he can still give wonderful piano recitals! It is only a question of will power. He was sentenced by a court martial to be shot at sunrise, at Havana, Cuba, during the Spanish-American War, because he was found in possession of documents of great value to another country, and at the last moment he was reprieved, set free, and sent back to England.

BLAZING OIL MENACES LIFE

Motor Tanker Petroleum II, at Point Wells, Near Seattle, Badly Damaged in Disastrous Fire

20,000,000 GALLONS CASOLINE MENACED

SEATTLE, Aug. 21.—The ship's cook, J. Phillips, was drowned and the vessel was undamaged, but company officials estimated it would take ten days or two weeks to make repairs.

Twelve thousand gallons of gasoline were burned, and the nine members of the crew who escaped alive swam through a blazing sea of gasoline which covered the surface of the water around the ship. They miraculously escaped injury. The vessel had just loaded 64,000 gallons of gasoline for Olympia when the fire broke out. She was quickly uncoupled and maneuvered to mid-stream. A small fire on the pier was put out quickly.

A hundred employees of the oil company fought the flames, assisted by the crew of the freighter Tanana, of the Alaska Steamship Company, which had just been refueled.

The Point Wells tank yards contained about 20,000,000 gallons of gasoline, fuel oil and distillate. Members of the crew of the Petroleum II lost all their belongings.

Other members of the crew escaped the flames by leaping into the water and swimming ashore. The cook was unable to swim. The oil company's dock at Point Wells

was threatened by the flames but was not damaged. Damage to the vessel was undetermined, but company officials estimated it would take ten days or two weeks to make repairs.

PLANES TO CARRY PARCELS TO FAIR

Eastern Cities Will Have Express Air Service to Toronto Exhibition

TORONTO, Aug. 21.—Planes of the International Airways Limited from Quebec and Windsor will, shortly before noon on Friday, August 24, land on Lake Ontario, facing the Canadian National Exhibition grounds and unload motor boats express parcels which have been consigned to exhibitors in the exhibition through the medium of the new Canadian Pacific air express packet service.

It is expected, too, that flowers will be sent from Ottawa to Lady Willingdon and received by her just previous to Lord Willingdon's declaring the exhibition open.

The plane from Quebec will leave that point at 4:30 a.m. and will reach Toronto at 11:45, and it will call to take up express packages at Montreal, Ottawa and Kingston en route. The Windsor plane will leave at 7:30 a.m. and will call at London and Hamilton before reaching the exhibition at 11:30 a.m.

Charges will be at the rate of fifty cents per quarter pound from Quebec to Toronto, and forty cents from Montreal, Ottawa and Kingston to the exhibition grounds. From all other points twenty-five cents only per quarter pound will be charged.

James H. MacBrien, president of the International Airways Limited, is taking the keenest interest in the flights, which will be a distinct novelty as far as the exhibition is concerned.

Effective July 27, 1928, the princess Maquinn will leave Victoria for Esquimaux Inlet and way ports at 11 p.m. every Wednesday.

Effective June 30, 1928, the princess Mary will leave Victoria for Fort Alice and way ports at 11 p.m. every Saturday.

Lake Graveyard Claims Another Victim

AT Todd Harbor, on the north shore of Isle Royal, big lozenge-shaped United States island, forty-five miles south of Port Arthur, the position of the Canada Steamship Company's package freighter, Kamloops, wrecked in the blinding blizzard of December 6, has been found close to the spot where nine bodies of the crew of twenty-two were found on the shore. June 1 marks the date of the latest sacrifice to this lake graveyard, fringed with a chain of rocky islets, sunken boats and reefs where ships almost too numerous to mention have crashed to their doom. Shown in the cut is the steamer America, which carried mail and passengers to Isle Royal from Duluth and twenty-nine minutes after she crashed on hidden rocks at the west end of Isle Royal on June 1. Fortunately the thirty-three passengers and the six members of the crew reached the shore in safety.

The Dorothy Alexander was held over at Seattle for the H. F. Alexander, delayed on her trip from San Francisco by engine trouble. The H. F. proceeded up the coast under two propellers, while work was done on her third turbine. There were fifty passengers on the vessel to be transferred to the Dorothy Alexander.

Arriving at Rithet piers at 3:30 o'clock from Seattle yesterday afternoon, the Pacific Steamship Company's Dorothy Alexander sailed for Alaska at 6 o'clock with a full passenger list.

FORMER PREMIER ON MS. AORANGI

Sir Joseph Ward, of New Zealand, Refuses to Discuss New Zealand Politics

VANCOUVER, Aug. 21.—"Too far from home to discuss the matter," was the answer of Sir Joseph Ward, former Premier of New Zealand, when asked this morning whether he had accepted the reported offer of the United party in his own country to lead them at the general election slated for this coming November. He arrived from the East at 9:30 on the Canadian Pacific Trans-Pacific after a holiday in Great Britain and will sail for home on the Aorangi on Wednesday.

Sir Joseph did not, however, deny the previously published report that fifty candidates of the United party had sought him as their chief. In fact, his answer implied that the report was correct. "I could not make any statement here with propriety," he said, "but would naturally have to announce my decision in New Zealand and to the men directly concerned. I am too far from home to discuss the matter now."

A Wellington cable today stated that so far no offer of the leadership had been formally extended. The Wellington dispatch merely stated that fifty candidates of the party had invited him by cable to become their leader.

Sir Joseph, who is seventy-two years of age, held the premiership and other ministerial posts under the Liberal regime for twenty-six years. The United party, while not a new movement, now includes many Liberals and other elements in New Zealand who are dissatisfied with existing Government there.

Shidzuoka Maru

The Nippon Yusen Kaisha liner Shidzuoka Maru will arrive at Williams head quarantine station at 5 o'clock on Friday afternoon from the Orient, according to word received by Mr. A. H. Hebb, local agent.

For this port there are fifteen steamer passengers, thirty-eight tons of cargo, forty-four bags of mail and ten air mail.

Heavy Fog Is Cause of Fire On Oil Tanker

SEATTLE, Aug. 21.—Heavy fog was blamed for the fire aboard the steel oil tanker Petroleum II early today, which cost the life of one man and for an hour menaced the yards of the Standard Oil Co. at Point Wells, where the vessel was moored.

Gasoline fumes, held in suspension in the atmosphere by early morning fog, became ignited. It was explained by Capt. John R. Jones, marine superintendent here for the Standard Oil Co.

SS. AFRICA MARU
HERE YESTERDAY

Osaka Shosen Kaisha Liner Brings Heavy Silk Cargo and Good Passenger List

Arriving here from Yokohama at 7:30 o'clock last evening, the Osaka Shosen Kaisha liner Africa Maru sailed for Seattle two hours later after setting down 238 tons of cargo and disembarking thirty-nine passengers.

Cargo for this port included silk goods, raw silk, combs, cotton dry goods, antimony, porcelain, earthenware and brushes. Included in the liner's 2,500 tons of cargo was 4,551 bales of raw silk. Her mail shipment included 101 bags of land mail and eleven air mail for this port, and 460 bags for Seattle.

One first-class passenger and thirty-eight steerage left the vessel here, while thirteen first-class and twenty-four steerage went on to Seattle.

Among those on board were: Mr. T. Tomioka, Mr. M. Hasegawa, Mr. A. Nishimura, Mr. and Mrs. E. A. Otori and family, Mr. S. Uchino, Mr. T. Nakanishi, Mrs. S. Shinohara, Mr. S. Miyai and Mr. G. Kosho.

Leaving Yokohama on August 9, the Africa Maru encountered fog which cleared up in mid-afternoon. Soon after a southeast gale buffeted the ship, causing no delay, however. The rest of the trip was uneventful, according to ship's officers, until a heavy fog was met yesterday morning.

Heeneey on Aorangi
Bound for Auckland

When R.M.S. Aorangi, Capt. T. V. Hill, arrives here from Vancouver at 5:30 o'clock this afternoon to sail for the Antipodes, she will have on board Tom Heeneey and his bride.

Heeneey, who recently failed to wrest the heavyweight championship of the world from Gene Tunney, will leave the ship at Auckland on September 10.

South Africa's building boom continues to grow.

BROAD RALLY IS STAGED ON STOCK MARKET

Nearly Two Score Rails and Industrials Make Gains of From One to Ten Points—Sales Increase

RAILWAY SHARES HEAVILY BOUGHT

NEW YORK, Aug. 21.—Shaking off the restraint previously imposed by tight money conditions, the stock market today staged one of the broadest rallies of the summer. Nearly two score rails and industrials were lifted to new highs on gains ranging from one to ten points. Total sales, 2,935,400 shares.

Cash money renewed at 7 per cent as against 6 per cent yesterday, and then advanced to 7 1/2 per cent as banks called more than \$300,000 in loans.

Railroad shares were heavily bought, Texas & Pacific ran up nearly 7 points to a new high of 189 7/8, as against a low of 99 1/2 earlier in the year, and St. Louis Southwestern moved up 5 3/4 points to a new top at 105. Substantial gains were recorded by B. & O., Canadian Pacific, and Pere Marquette.

Most of the declines were held to a point or so. Mail order shares, again changed hands in large volume. Montgomery, soaring 9 1/2 points to a new high at 223 1/4, and Sears Roebuck moving up nearly 5 points to a new top at 139 7/8. Tobacco shares also attracted a large following.

New peak prices for the year or longer also were registered by American Can, Best & Company, Allis Chalmers, Paramount, Famous, Lasky, National Power & Light, Oils Steel, Continental Insurance, Kresge, Grand Union common and preferred, Pierce Arrow preferred, and several others.

United States Steel common was in brisk demand, climbing 3 1/2 points to 151 7/8. General Motors scored a net gain of 2 1/2.

A jump of 10 points in Japanese yen to 44.80 cents was the only change in the foreign exchange. Sterling cables ruled a shade easier at 4.85 1/16.

CANADA—HER WATER POWER RESOURCES

HYDRO-electric power—one of Canada's greatest assets—has been the magnet that has attracted many of her most important industries. Without it her new-print supremacy would be impossible and her mineral wealth largely untapped.

To harness her mighty rivers Canada has already expended over a billion dollars. She has constructed a dam larger than any other in the world—twice the capacity of the famous Assouan dam which holds back the waters of the river Nile.

Look Ahead! The opportunities of To-morrow are in the making To-day

Latest News From Wall Street

(Supplied by Branson, Brown & Co., Ltd.)
NEW YORK, Aug. 21.—Despite the unimpaired advance in the leading industrial over the last ten days, stocks of this class continued to rise steadily today. While the tradition of a Tuesday's reaction in a bull market caused considerable profit-taking, realizing sales caused only temporary irregularity.

Operations for the rise in standard issues became increasingly aggressive under the influence of impressive strength in the recognized leaders of the industrial division. Montgomery Ward resumed its advance in vigorous fashion, rising to the highest price of its history about 200. Allis Chalmers and Union Carbide also reached new record highs. Sears Roebuck and American Can sold at highest levels attained since the readjustments in the old shares. Steel climbed above 150 for the first time since the early June reaction.

Bullish activities broadened as the session progressed. Powerful demonstrations were shown in representative issues like Corn Products, Fleischmann, Commercial Solvents and American International. The latter advanced vigorously to record substantial appreciation in its holdings of Texas and Pacific, which has been steadily advancing in record territory.

Winnipeg Grain
(Supplied by Branson, Brown & Co., Ltd.)
WINNIPEG, Aug. 21.—Wheat was unchanged to 1/4 lower at the start this morning, but a little export business came in which was followed by considerable short covering based on private reports of frost at some points in the West. Offerings were fairly liberal, but they were taken, and prices climbed 1/4 above the early low mark. The market held very firm most of the day, but trade was light after the shorts had covered, and prices again eased off, getting close to the early low mark. The weather over Western Canada was clear, but temperatures mostly higher, were low in some points in Manitoba, where wheat is mostly all cut. The official map showed three degrees frost at one point only in Northwestern Manitoba, but it was quite probable that there were a few degrees at other points, but not sufficient to hurt wheat, even if uncut, the crop being too far advanced. In the cash market there was a better demand today, exports taking three northern and were after the low grades. Spreads were fractionally lower to fractionally higher. Export rates in all positions estimated at half million bushels, including Manitoba, hard winters and durums. Liverpool was weaker than the most of the day, but closed firm on reports of frost damage from Canada. The forecast is favorable and higher temperatures are promised. The

NEW YORK SUGAR
NEW YORK, Aug. 21.—The raw sugar market was quiet today and no sales were reported. Action of the futures market seemed to check new business by refiners who apparently are supplied for the present, at least, and sugar offerings at further concessions or on the basis of 4 1/4 duty paid, found no response. It was reported that yesterday an outport refiner shipped 20,000 bags of Cuban for September shipment at 4 1/8 delivered.

In refined sugar, prices were unchanged at 5.65 for fine granulated, with a good withdrawal demand.

MONEY MARKETS
LONDON, Aug. 21.—Money, 3% per cent.
Discount rates: Short bills, 4 1/2 per cent.; three months' bills, 4 1/2 to 4 3/4 per cent.

AT NEW YORK
NEW YORK, Aug. 21.—Call money firm; high, 7 1/2; low, 7; ruling rate, 7; closing bid, 7 1/2.
Time loan firm; mixed collateral, 60-90 days, 6 1/2 to 6 3/4; 4-6 months, 6 1/2 to 6 3/4.
Prime mercantile paper, 5 1/2 to 5 3/4.

NEW YORK STOCK
NEW YORK, Aug. 21.—The New York Stock Exchange was assuredly the strongest display since June when the market was freely opened. The supply was nearly equal to the demand for the former twin market leaders, Steel Common and General Motors, also the active buying of mail order shares, Retail Stores issues. Public utilities under the leadership of public service of N. J. and other recent favorites such as Postum and Victor. Talking propelled many of these issues to their best levels of the year, though throughout the dealings Manhattan Electrical Supply was freely opened.

The rails are likely to give a better account of themselves, but the buying at its best is a discriminating affair, and we believe the bulges in the industrial section should be taken advantage of to reduce long holdings.

PHOTORADIO IS NEW INVENTION

Experiments of Apparatus Proves Great Success—Set to Be Put on Market Soon

TESTS TO CONTINUE DURING THE WINTER

WASHINGTON, Aug. 21.—Fascinating experiments evidencing the tremendous strides recently taken in the radio transmission and reception of images, still and moving, furnish the subject of a report submitted to the Federal Radio Commission today by Commissioner O. H. Caldwell, of New York. "Visual broadcasting," in the general application given by Mr. Caldwell to the new art which has variously been called photoradio, television and radiovision.

Joining other leaders in the radio field, Commissioner Caldwell envisions the day as yet far distant when "visual receivers" will be commonplace in the average home. Already the art of reproducing photographs by radio has progressed to the point where many broadcasting stations regularly are sending out still pictures on their standard channels to be received by special sets now in production.

However, the Jenkins Radio-Photographs, the Ranger Photoradio and the Conley Rayfoto, among the better known of the still picture devices, seem to be giving way in interest to the more intriguing development of moving images by radio.

In this connection, terminology in the visual "broadcasting" field should be explained. Misnomers in this art are decreed by Dr. J. H. Dellinger,

chief of the Bureau of Radio Standards. One of those who believe that the simultaneous transmission of actual events by radio will some day be a reality but who caution against too great expectations in the immediate future.

Webster's Dictionary defines television as "vision obtained at a distance by means of a telegraphic system." This might be construed to mean still pictures by radio or wire, as well as moving pictures, but Dr. Dellinger, a past president of the Institute of Radio Engineers, declares that radio scientists generally are agreed that the word television should apply only to moving images sent and received by radio.

RADIOVISION

C. Francis Jenkins, the pioneer Washington inventor in the field of still and moving images, suggests the adoption of "radiovision" as a term that will make this art as distinct from the public display of a radiogram as distinct from a telegram.

Mr. Jenkins' experiments are those mentioned in Mr. Caldwell's report which was rendered as a step toward drawing up Federal regulations to control this "visual broadcasting." The New York commissioner tells of seeing "Jenkins' all-hotties" of full length figures—black and white animated cartoons which the inventor is demonstrating daily at his laboratories here. Scores of amateurs have built the simple receiving set designed by Mr. Jenkins by getting specifications that are furnished in the form of reports already coming in of the successful reception of the images as far away as Chicago and Montreal.

Mr. Jenkins is now building a transmitter which will broadcast motion pictures in half tones on the eleven-kilocycle band which he was recently licensed to utilize. He has proposed to demonstrate the results this winter in a Washington movie house where he will receive the first to send photographs by radio. Mr. Jenkins has a wide following in the art he calls radiovision, and he

has scores of patents which he regards as basic in this field. Commissioner Caldwell states that three popular stations in his zone are now broadcasting the buzzy and whistles that can be translated into television images with proper apparatus and many more throughout the country are sending maps, diagrams and pictures. They are getting fairly satisfactory results even in the relatively restricted limits of the ordinary broadcast bands ten kilocycles wide, he reports.

Going to wider bands of transmission, such as forty to eighty and sometimes 100 kilocycles, Mr. Caldwell well tells of the experiments with the Alexanderson television apparatus at Schenectady. There, he said, he saw the features of a man and its motions clearly depicted in a 4 x 4-inch scanning aperture, and then saw the apparatus receive moving images of two men actually boxing, wrestling and fencing under daylight illumination.

TELEVISION EXPERIMENT

About a week ago another important television experiment took place in the Westinghouse house plant at Pittsburgh where Dr. Frank Conrad, sometimes called the "Father of Broadcasting," has turned his efforts to this new work. Pictures were sent by radio from motion picture reels. Mr. Caldwell calls this "a form of deferred television," and says it gives greater clarity and effectiveness than ordinary television because of the higher light intensities are controllable by the intermediate film element.

At the Bell telephone laboratories in New York a few weeks earlier a convincing experiment was demonstrated on still another television apparatus, showing a tennis player in action in ordinary sunlight.

The only real suggestion of early production of television apparatus for home installation was made in connection with the Westinghouse experiment with motion picture films. It was definitely stated then that the Radio Corporation of America, by reason of its patent and production arrangements with Westinghouse, would probably market the set soon. This heralds the probability of seeing of motion picture plays at home instead of going to the theatre.

Reduced to its simplest, according to Mr. Caldwell, all television apparatus consists merely of a scanning disc and Neon lamp or tube. The latter, changing the intensity of light spots with lightning rapidity so that they formulate quickly changing pictures, is as mysterious and wonderful a device as the vacuum tube makes any broadcast-casting and reception possible.

George W. Massie, of Edmonton, was arraigned in the City Police Court on remand before Magistrate George Jay yesterday to face four separate charges of fraud. Mr. Frank Higgins, K.C. counsel for Massie, requested a further adjournment of the case for one week, and a remand for that period was granted.

Arrested by Constable George Varney on Douglas Street yesterday morning, Peter Lanchick was charged with driving his automobile, the common danger on August 21. Mr. Richard C. Lowe, counsel for the accused, secured an adjournment of the case until this morning. The court granted cash bail of \$50.

The charge against Kenneth Derbyshire of failing to bring his automobile to a full stop upon entering an arterial highway was dismissed. The defendant pleaded not guilty to the charge.

Store News for This Morning
